Change in State FTE	0.0 FTE	0.0 FTE

These impacts result from continuing a program scheduled to repeal and reflect the extension of current spending levels.

Summary of Legislation

Under current law, the Colorado Forest Health Council in the Department of Natural Resources (DNR) is scheduled to repeal on September 1, 2026. The bill continues the council until September 1, 2033. The bill also removes the two legislative members of the council.

Background

The council meets at least quarterly, and has met as many as nine times in the past few fiscal years. Two of its annual meetings are conducted in person. Although there is no dedicated budget in the DNR to support the council, the continuously appropriated Healthy Forest Vibrant Communities Cash Fund administered by the State Forest Service has historically been used to assist with all meeting and administration costs, and also has been used for one-time special projects. These meeting and administrative expenses have averaged \$3,000 annually.

The per diem for the legislative members is not currently in the Legislative Department budget; therefore, no reduction in appropriations is required.

Continuing Program Impacts

The DNR is expected to continue to have cash fund expenditures of about \$3,000 annually to administer the council. Expenditures are from the Healthy Forest Vibrant Communities Cash Fund. If this bill is enacted, current expenditures will continue for the program starting in FY 2026-27. If allowed to repeal, state expenditures will decrease starting in FY 2026-27 by \$3,000 per year.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
