Summary of Legislation

The bill changes the date on which the Colorado Agricultural Development Authority must relinquish unexpended private activity bond funds to the statewide bond allocation ceiling from September 15 to November 15 each year.

Background

Under current law, Colorado receives a federal allocation of private activity bonds, which are tax-exempt bonds issued by or on behalf of local or state governments to finance various types of projects. This funding is available through the statewide balance, which is available to local bond issuers, statewide authorities, and designated local governments. State law requires that, prior to September 15, agencies must relinquish unused portions of their allocation to the statewide balance.

In 2025, the Colorado Agricultural Development Authority received \$7 million for bond issuance.

State Expenditures

There will be a small workload increase in the Department of Local Affairs to update procedures to accommodate the new timeline mandated by the bill. This change is expected to be minimal and absorbable.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
