payroll of each division, except in certain circumstances. The bill changes the allocation of the direct distribution by specifying that, beginning with the direct distribution occurring on July 1, 2026, and on July 1 of each year thereafter, PERA is required to allocate the direct distribution to the trust funds of each division of PERA on an actuarial basis to maximize PERA's blended total contribution amount in a manner that limits, to the extent possible, the triggering of automatic adjustment provisions, which are triggered when PERA's divisions fall below a targeted level of funding.

The bill also changes the amount of PERA employer contributions that are allocated to the health care trust fund from 1.02% of member salaries to 0.52% of member salaries.
