SENATE
Amended 2nd Reading
April 28, 2026

The council shall convene advisory sessions with stakeholders from the nuclear, educational, and workforce development sectors; implement the grant program; and contract with one or more third-party entities for staffing and operational assistance.

The council may seek, accept, and expend gifts, grants, and donations for council-related purposes. The state treasurer shall credit the gifts, grants, and donations to the Colorado nuclear workforce development and education cash fund (cash fund), which is created in the bill. The general assembly shall not appropriate general fund money to implement or maintain council operations or grant awards. The council shall convene and begin awarding grants only after the balance of the cash fund reaches or exceeds \$500,000.

The bill imposes requirements to report to the general assembly about the council's funding sources, grant program implementation, and other uses of the grant program money. The bill repeals the council, effective September 1, 2033, unless the council is extended following a sunset review.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Nuclear energy is a critical component of Colorado's clean
5 energy strategy and economic development, offering consistent, reliable,
6 and noncarbon power generation to support grid stability and emissions
7 reduction goals;

8 (b) A highly skilled workforce is essential for the deployment and
9 operation of nuclear technologies. Workforce readiness in engineering,
10 radiation safety, and reactor technology is necessary to support Colorado's
11 energy transition.

12 (c) The Colorado nuclear workforce development and education
13 council will harness private investment, federal funding, and strategic
14 partnerships to make the state a leader in nuclear energy workforce
15 development. Through grants to eligible institutions of higher education
16 and related technical assistance, the council will expand educational

1 pathways to careers in the nuclear energy sector.

2 (d) The Colorado school of mines' expertise in energy resource
3 management, workforce development, and federal grant facilitation
4 uniquely positions it to house the Colorado nuclear workforce
5 development and education council; and

6 (e) By developing and expanding existing state higher education
7 infrastructure, including degree and certificate programs and technical
8 training, and by leveraging public and private sector collaboration, the
9 Colorado nuclear workforce development and education council will help
10 Colorado expand workforce readiness in the nuclear energy sector
11 without new state appropriations, supporting long-term economic growth
12 and clean energy innovation.
