Summary of Legislation

Starting with the General Assembly's 2027 session, the bill requires Legislative Council Staff (LCS) to facilitate local government impact hearings for certain measures selected by legislative leadership. The Speaker of the House, President of the Senate, and the majority and minority leader of each chamber may select up to 5 measures for a hearing. A hearing must last between one and two hours in which local governments or a statewide organization representing local governments may present testimony to the committee regarding potential local government impacts of the measure. Finally, the bill requires the director of LCS to develop procedures to implement the hearings.

State Expenditures

Starting in FY 2026-27, the bill increases workload for LCS to develop procedures and to facilitate local government hearings. This work can be managed as part of the current workload of managing committees during session and does not require additional appropriations.

Local Government

The bill increases workload for local governments to attend and testify on the local government impacts of select bills. Workload to attend and testify at select hearings will be minimal.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
