Bill Outcome: Signed into Law

Drafting Number: LLS 26-0461

Version: Final Fiscal Note

Date: June 23, 2026

Fiscal note status: This final fiscal note reflects the enacted bill.

Summary Information

Overview. The bill modifies environmental standards and requirements for certain irrigation equipment.

Types of impacts. The bill is projected to affect the following areas on an ongoing basis:

- Minimal State Workload

Appropriations. No appropriation is required.

Table 1
State Fiscal Impacts

Type of Impact	Budget Year FY 2026-27	Out Year FY 2027-28
State Revenue	\$0	\$0
State Expenditures	\$0	\$0
Transferred Funds	\$0	\$0
Change in TABOR Refunds	\$0	\$0
Change in State FTE	0.0 FTE	0.0 FTE

Summary of Legislation

Under current law, irrigation controllers and sprinklers sold or leased after January 1, 2026, must adhere to certain environmental standards if they are not specifically excluded from the federal WaterSense Program. This bill repeals the environmental standards for irrigation controllers and spray sprinkler bodies.

Background

[House Bill 23-1161](#) expanded the list of appliances subject to Water and Energy Efficiency Standards in accordance with the federal [WaterSense Program](#) to include certain irrigation controllers and types of sprinklers. The WaterSense Program is voluntary and administered by the Environmental Protection Agency (EPA). All products certified and bearing a WaterSense label must be independently certified, and manufacturers must obtain all [WaterSense product certifications](#) from an EPA licensed certifying body.

State Revenue and Expenditures

The bill may minimally alter workload in and revenue to the Judicial Department. The department may see a small decrease in civil filings regarding violations associated with irrigation controller standards.

Effective Date

The bill was signed into law by the Governor on May 4, 2026, and takes effect on August 12, 2026, assuming no referendum petition is filed.
