license or permit to possess and present a digital license or permit instead.

Under existing law, it is a class A traffic infraction for a driver who is in possession of a driver's license, instruction permit, or identification card to refuse to provide that identification, upon request, to a peace officer who reasonably suspects the driver has violated a traffic law. The bill requires a person who has in the person's possession a digital driver's license or identification card (digital identification) to provide the digital identification, upon request, to a peace officer who reasonably suspects the driver has violated a traffic law. The bill makes it a class 2 misdemeanor traffic offense to refuse to provide a driver's license, instruction permit, identification card, or digital identification to a peace officer. The bill removes the specified penalty and surcharge for the traffic infraction.

The bill permits a driver who does not have the person's driver's or minor driver's license in the person's immediate possession to present to a requesting peace officer a digital driver's license or identification card as a form of personal identification.
