Under current law, an adult may establish advance medical orders for scope of treatment, allowing an adult to establish directives for the administration of medical treatment in the event the adult later lacks decisional capacity to provide informed consent to, withdraw from, or refuse medical treatment.

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing statute.
Dashes through the words indicate deletions from existing statute.

The bill creates a similar order for behavioral health orders for scope of treatment so that an adult may communicate his or her behavioral health history, decisions, and preferences.

The bill:

- ! Lists the requirements for a behavioral health orders for scope of treatment form;
- ! Details the duties and immunities of emergency medical services personnel, health care providers, and health care facilities with respect to treating an adult with behavioral health orders for scope of treatment;
- ! Details how a behavioral health orders for scope of treatment form is executed, amended, or revoked; and
- ! Prohibits an effect on a health insurance contract, life insurance contract, or annuity, by executing or failing to execute a behavioral health orders for scope of treatment.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Colorado law has traditionally recognized the right of an adult
5 or his or her authorized agent to accept or reject health care or treatment;

6 (b) Each adult has the right to establish instructions for the
7 administration of behavioral health treatment;

8 (c) Current instruments for making instructions concerning
9 medical orders for scope of treatment do not adequately address the
10 complexities associated with behavioral health treatment; and

11 (d) Adults with behavioral health disorders are in particular need
12 of a consistent method for identifying and communicating critical
13 behavioral health treatment history, decisions, and preferences that each
14 sector of the health care community will recognize and follow.

15 (2) The general assembly therefore concludes that it is in the best
16 interests of the people of Colorado to create a behavioral health orders for
17 scope of treatment. Consistent with the goal of enhancing

1 patient-centered, compassionate care through methods to enhance
2 continuity and communication across health care settings, behavioral
3 health orders for scope of treatment will provide a process for timely
4 discussion between adults, their health care providers, and their
5 authorized agents about behavioral health treatment, and will ensure those
6 preferences are clearly and unequivocally documented.
