receives sufficient funding, the department shall convene a consortium consisting of a group of representatives from institutions of higher education to:

- Share best practices on improving access to quality work-based learning opportunities for students;
- Help participating institutions of higher education meet workforce needs in Colorado and connect academic learning with real-world experiences through career preparation and skill development for students; and
- Make recommendations to the general assembly and institutions of higher education on the best practices.

Subject to available appropriations, at the end of the 3-year pilot program, the consortium shall complete and submit a report to the education committees of the house of representatives and the senate, or their successor committees. The report must include:

- A description of the consortium's findings and recommendations;
- Details on the consortium's impacts on participating institutions of higher education and the effects of creating additional work-based learning activities on students, faculty, and employers; and
- Recommendations for statutory changes, financial resources, department policy changes, and institution of higher education policy changes necessary to improve successful work-based learning opportunities for students in institutions of higher education.

Funds appropriated to the commission on higher education (commission) may be used by the commission to cover the costs of work-based learning requirements for students who are required to complete credit-bearing work-based learning requirements to graduate from an institution of higher education.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Colorado has continued to improve access to high-quality
5 work-based learning through the creation of tools like the work-based
6 learning continuum, work-based learning quality expectations, and the
7 talent development glossary;

1 (b) The Colorado department of higher education and the
2 Colorado commission on higher education find that work-based learning
3 opportunities significantly enhance a student's exposure to the workforce
4 and empower students with the skills necessary to succeed in a rapidly
5 evolving economy; and

6 (c) The Colorado department of higher education and the
7 Colorado commission on higher education find that work-based learning
8 opportunities are a critical element of postsecondary success and blur the
9 lines between K-12 education, postsecondary education, and the
10 workplace in all fields;

11 (2) The general assembly finds, therefore, that Colorado's learners
12 and earners will be well-served by the expansion of work-based learning
13 opportunities that are strategically developed, monitored, and
14 continuously improved, and function as a part of an intentionally designed
15 and managed effort among institutions of higher education, program
16 design experts, workforce development and economic experts, and
17 industry leaders, particularly industry leader employers in high-demand
18 fields.
