# AMPLIFY Act: AI Ethics and Pattern Disclosure

*Legislating Drafter Working Package — 33-bill modular AMPLIFY build*

**Legislating drafter file.** This chapter draft is designed to stand on its own and to support modular insertion into broader AMPLIFY stacks.

# Bill 10. AMPLIFY Act: AI Ethics and Pattern Disclosure

**Single subject.** Periodic operator ethics disclosures and pattern-based reporting obligations.

**Purpose.** Pull ethics, disclosure, and pattern notice out into their own narrow chapter.

## Draft structure

| Section | Core draft direction |
|---|---|
| 1. Short title | This act shall be known and may be cited as the "AMPLIFY Act: AI Ethics and Pattern Disclosure". |
| 2. Legislative declaration | The general assembly finds and declares that pull ethics, disclosure, and pattern notice out into their own narrow chapter. |
| 3. Definitions | Definitions should be alphabetized, lowercase, and drafted in singular form unless a term of art requires otherwise. |
| 4. Operative sections | Substantive rights, duties, approvals, or restrictions listed below. |
| 5. Administration | Rulemaking, designation of administering authority, records, notices, and implementation mechanics. |
| 6. Construction | Independent operation, severability, no implied repeal, and other necessary construction clauses. |
| 7. Effective date | Effective date and any conditional clause required by filing strategy. |

## Draft definitions

**ethics disclosure.** an annual or periodic filing describing objective functions, training provenance categories, bias reviews, decision inventories, or similar information required by law or rule.

**reportable pattern.** a repeated, clustered, or escalating compliance pattern identified by law or rule.

## Draft operative provisions

### Section 4. Annual disclosure
- A covered operator within a class identified by rule shall file an ethics disclosure in the form prescribed by the administering authority.
- The disclosure may include objective-function descriptions, training-data provenance categories, audit summaries, and inventories of consequential automated uses.

### Section 5. Pattern reporting
- A covered operator shall report any reportable pattern identified by rule within the time period established by rule.
- The administering authority may publish aggregated pattern information consistent with privacy protections.

## Required construction clauses

- Independent operation. This act operates independently and remains effective whether or not any related measure or companion act is adopted.
- Severability. If any provision of this act or its application is held invalid, the invalidity does not affect other provisions or applications that can be given effect without the invalid provision or application.
- Single-subject construction. This act shall be construed to embrace only the single subject described in its title and no separate subject shall be inferred from a remedy, definition, recordkeeping duty, funding mechanism, or construction clause that is necessarily and properly connected to that subject.
