

STATE OF COLORADO

COLORADO DIGITAL RIGHTS LEGISLATIVE NOTIFICATION ACT

Be it Enacted by the People of the State of Colorado:

One Sentence Pitch: If your representative keeps ignoring a problem you should know about it before you vote for them again.

ENACTING CLAUSE

Be it Enacted by the People of the State of Colorado:

Single subject. This act concerns the creation of an AI-assisted technical regulatory compliance monitoring system that generates administrative notifications to the General Assembly based on objective data thresholds related to digital rights and automation economics in Colorado.

SECTION 1 — DISTINCTION FROM CONSTITUTIONAL REFERRAL

This Act does not instruct the General Assembly to refer any constitutional amendment to voters. Courts have struck down citizen initiatives that instruct the GA on constitutional referrals under Decision 158. This statute creates a technical regulatory compliance mechanism — an AI monitoring system that generates administrative notifications based on objective data. The GA receives a report. What they do with it is their choice. They can never again claim they did not know.

SECTION 2 — THE MECHANISM

There is hereby created within the CCPAME a Digital Rights Legislative Compliance Monitor. The monitor is a statutory AI monitoring system that observes defined threshold conditions. When conditions are met the system automatically generates a formal compliance notification to the General Assembly. The notification does not say the GA must refer a constitutional amendment. It says the following regulatory threshold has been reached and pursuant to statute the General Assembly is hereby notified of the following conditions requiring legislative review. That is an automated administrative compliance function. Not a political instruction.

SECTION 3 — PERPETUAL MOTION COMPLIANCE

They can silence Level 1. They can table Level 2. They can ignore Level 3. But every time they do the documentation of that silence builds and the public visibility increases. Their inaction becomes the evidence. Their silence becomes the campaign. The mechanism doesn't ask once. It observes continuously. Every tabled notification is a new brick in the record of deliberate inaction.

SECTION 4 — PUBLIC VISIBILITY REQUIREMENTS

- (1) Every notification published to public database within 24 hours. Timestamp, threshold data, identity of every legislator who received it — all permanent public record.
- (2) Response window. GA has 30 days to file formal response of any kind. Silence is not a response.
- (3) Silence Notice. If GA does not file formal response within 30 days the monitoring system automatically generates and publishes a Silence Notice to the public database.
- (4) Cumulative Silence Counter. Permanent. Updates automatically. Visible to any Colorado resident.
- (5) Voter Benefit Impact Statement. Each notification includes calculation of estimated resident benefit not delivered during period of legislative inaction expressed in dollars per Colorado resident per year.
- (6) Election proximity disclosure. Silence Notices generated within 90 days of any election automatically transmitted to every registered Colorado voter in the relevant legislative district via myColorado ID app.

SECTION 5 — THEY FUND THE CAMPAIGN TRYING TO KILL IT

Legislative finding. Every dollar spent opposing this Act increases public awareness of the thresholds it monitors. Every media story generated by opposition research sends voters to the public database where the Cumulative Silence Counter and Voter Benefit Impact Statements are permanently displayed. Opposition to this Act constitutes involuntary distribution of its findings. The General Assembly is advised accordingly.

This measure takes effect from and after the date of the official declaration of the vote thereon by proclamation of the governor, as provided in section 1 (4)(a) of article V of the Colorado constitution.

SECTION 99. EFFECTIVE DATE.

This measure takes effect from and after the date of the official declaration of the vote thereon by proclamation of the governor, as provided in section 1 (4)(a) of article V of the Colorado constitution.
