On motion of Majority Leader Fenberg, and with the unanimous consent of those elected to the Senate, the Senate stood in recess to hear the opening day remarks of Senate President Leroy M. Garcia and Senate Minority Leader Chris Holbert.

Senate in recess.
The text of President Garcia's Remarks follow.

Madam President Pro Tempore. Mr. Majority Leader. Mr. Minority Leader. Friends.
Loved Ones. Honored Guests.

Good morning and welcome back to the Senate…

To our re-elected senators, congratulations on your hard-fought campaigns and well-
earned victories. Your tireless work stood the test, and your constituents reaffirmed their
confidence in your representation.

Senators Bridges, Fields, Gardner, Ginal, Hansen, Moreno, Priola, Rankin, Smallwood,
Zenzinger. We are honored to have you return to this body and look forward to our
continued work together!

To our newly elected senators, Welcome. Your communities have sent you to represent
them during a time unlike any other – trusting you to put their wellbeing above your own,
their priorities above party politics… I expect you will treat this chamber with the honor
and respect it requires and add to our long-standing tradition of cooperation and dutiful
deliberation.

Senators Buckner, Coleman, Jaquez Lewis, Kirkmeyer, Kolker, Liston, Simpson. I hope
this chamber will be stronger because of Your presence.

This past year has been one of the most difficult times in living memory.

After almost 10 months of isolation, fear, loss, and burn-out we are a community changed.

People’s jobs have disappeared, their life savings bled dry, and their lives thrust into a
seemingly endless barrage of tragedy and unrest.

We have seen small businesses suffer, devastating - often unrecoverable - damage, our
kids turned victim to an ever-changing learning schedule and environment, as well as a
storm of mental health issues resulting in increased suicide and overdose deaths.

And in the midst of all this heartbreak, we have watched a president and his enablers
cause unimaginable destruction to our democracy— sowing lies and distrust into the minds
of vulnerable people and ultimately radicalizing them to engage in violent and seditious
behavior.

We are at a critical crossroads, with certain challenges no one has ever faced in human
history, and how we respond to these challenges will define our world ir-revocably.

I know today is not the opening day any of us imagined or hoped for when we adjourned
last summer.

But even as this crushing pandemic continues to wreak havoc on our state, its grip is
lessening.

With TENS of thousands of Coloradans already vaccinated, and millions of dollars in
direct aid to our state already allocated, we are well on our way to defeating this pandemic
once and for all.

Yet the aftershocks of this disease will ripple through our communities - long after our
immunity.

That’s why we are at the precipice of one of the MOST important legislative periods in
Colorado history.

It is our collective responsibility to shepherd this state not only through an economic
recovery, but a social transformation.

A recovery that doesn’t just “return things to normal” but rights the wrongs of an
economy that already disadvantaged working people… and corrects course towards a
system that benefits ALL Coloradans not just those at the top.

While we will not walk these halls over the next month, our work must remain on track.
Now is the time to LISTEN to our constituents, get creative, and come back with a rigorous plan to deliver on the issues most important to Coloradans.

This includes policies to lower the cost of living, increase access to affordable healthcare, bring direct relief to struggling small businesses, and support students getting back to school.

I have tremendous faith in this body and its ability to work together for the good of our state.

What better example than the success we achieved during special session – coming together to pass meaningful policies that provide direct relief to Coloradans during their time of need.

We have PROVED we can work together, but it requires an individual commitment from Every Single Member, to roll up their sleeves and be a part of the solution.

Colorado is NOT Washington D.C. We are independent, forward-thinking problem-solvers that refuse to allow party affiliations to turn us into mindless soldiers of myopic ideologies.

Now more than ever, it is imperative that we continue in this example and do NOT let national division grow roots here in our backyard.

So let us use our time wisely and in good faith – putting duty above political agendas and humanity above hubris, because people’s lives and livelihoods depend on it.

Thank you.

President Garcia recognized Minority Leader Holbert to address the Senate.

______________________________

The text of Minority Leader Holbert's remarks follow.

Mr. President, Mr. Majority Leader, members of the Colorado Senate, families and guests:

With the start of the first regular session of the 73rd General Assembly, our part-time citizen state legislature returns to help steer our state through one of the most challenging times in the history of our state, and with that, the health, economic, and budgetary consequences that have come with it.

If the COVID-19 pandemic has taught us anything, it is how abundance in the best of times must be appreciated. For nearly a decade, a robust and growing Colorado economy provided state coffers with record-setting revenue, making a glutton out of our legislature. Then, with the sudden collapse of that economy due to COVID-19 and government restrictions on business and personal activity, we saw the greatest single-year revenue decline in state history.

If the COVID-19 pandemic has taught us anything, it is how abundance in the best of times must be appreciated. For nearly a decade, a robust and growing Colorado economy provided state coffers with record-setting revenue, making a glutton out of our legislature. Then, with the sudden collapse of that economy due to COVID-19 and government restrictions on business and personal activity, we saw the greatest single-year revenue decline in state history.

Senate Republicans offer our thanks to the prior members of the Joint Budget Committee, Senators Rankin, Moreno, and Zenzinger. Not just for their ability to navigate those troubled waters, but their willingness and cooperation to do so. It was a thankless job that required them to stick to facts, numbers, and data despite overwhelming emotional upheaval from every department, agency, organization, and program that depends on government funding. Mr. President, with your permission, might we take a moment to give those members a round of applause to show our appreciation?

But, the work of the Joint Budget Committee isn’t over – our work as the Senate isn’t over. Unfortunately, years of blue sky promises from the ruling political party in this state are now not able to be fulfilled. Efforts to pad state coffers with new tax and fee proposals have been met with fierce opposition by the voters of this state. Where the majority party has been successful at implementing new programs, that was often at the expense of long-existing programs that are now facing drastic cuts.
In 2019, Colorado voters rejected Proposition CC, which sought to halt refunds under the Taxpayer’s Bill of Rights. In 2020, the People of Colorado passed both Proposition 116, which lowered the rate of state personal income tax; and they passed Proposition 117, which will ensure that voters have the right to weigh in on fee increases and put an end to the endless creation of massive government enterprises.

To the voters who have made their voices clear, we Senate Republicans hear you. Now more than ever, in an economy so controlled by Executive Orders from the Executive Branch, we should stand opposed to increasing the burden on the working men and women of Colorado. I will stand against the creation of a new tax, an increase of an existing tax rate, or attempts to implement new fees on existing taxes and I encourage the members of the Senate Minority caucus to stand with me in that effort. Such plans for so-called “new revenue” would only serve to increase the burden on Colorado families to keep food on the table and a roof over their heads.

During the last 10 months, over 300 Executive Orders have been issued by our Governor. Arguably, during an emergency such as this, the executive branch must step up and lead. I offer my thanks to Governor Polis and his administration for their endurance during these unprecedented times. Still, with the lessons learned during the COVID-19 pandemic, we must be willing to have a conversation, however uncomfortable it may be for those in the same political party as our current governor, regarding the balance of power in our state government during the next prolonged statewide disaster emergency.

People from across Colorado, in all thirty-five state Senate districts and of all political affiliations have rightly asked, “Where is our legislature?” For example, they rightly demanded answers as to why we, colleagues, decided to limit hair salons to 50% of their rated occupancy or 10 persons, whichever was less? They have rightly wanted to understand why we decided that restaurants and other establishments were to be limited to certain capacities. They demand to know by what criteria we legislators decided which businesses were deemed “essential” and which were not. But, the answer to all such questions is the same: we didn’t. We couldn’t. We are a part-time citizen legislature and we did not participate in making any of those decisions for the people who we represent.

We have seen many changes to our Colorado Constitution within the last 32 years, and perhaps it is time that we discuss how we can ensure that the legislature remains a co-equal branch with the executive branch during a prolonged declared statewide disaster emergency.

Senate Republicans will fight to ensure this discussion occurs this session, led by Senator Lundeen who will again introduce a concurrent resolution seeking to restore balance between the Executive and Legislative branches of our state government during the next prolonged declared statewide disaster emergency.

That proposal is not a partisan one, nor does it seek to pass judgement on the current Governor for actions he did – or did not – take during this crisis. Nobody could have foreseen an emergency declaration that lasted 308 days, gave authority for hundreds of executive orders, and left our legislative branch out of the conversation.

But now we know. Today, we have the benefit of experience and knowledge that our predecessors did not have. And now, we must act.

Senate Republicans also invite our friends opposite to join us in an effort to end the random discrimination against Colorado small businesses that have been deemed “non essential.” Senator Rob Woodward will, once again, introduce a bill based on legislation that passed the Ohio House of Representatives with strong bipartisan support. We can do that, too. We’ve worked together before and we can do it again.

What would Senator Woodward’s bill do? It would simply allow businesses to remain open by following the same guidelines as “essential” businesses, rather like we are now.

You may be familiar with the story of a “Smoker Friendly” store located in Parker Colorado. That business sells tobacco products to adult customers. I’m not a customer, I’m not even a prospective customer. But, by what criteria was the owner of that business forced to remain closed? It wasn’t the products that he sells. Nope, a customer could go to any one of several large national businesses within sight of that small business to buy tobacco products.
Was it the size of his business? No, it wasn’t that, either. During the entire shutdown period, a customer could go to any one of the several liquor stores located nearby, both large and small, to buy liquor. Or, for those who patronize cannabis dispensaries, those customers could do business at any of the small or large dispensaries located throughout the metro Denver area. How about the local small business in my community that sells sprinkler parts? No, they weren’t deemed “essential” so they had to remain closed… while the big box national chains couldn’t keep enough sprinkler parts in stock last spring.

This isn’t a partisan issue, colleagues. This is just as right for the constituents who you represent as it is for the people who I represent. And, it’s the right thing for us to do for the business owners and employees of those businesses throughout Colorado.

There has also been a great deal of discussion regarding our role as part-time, citizen legislators. Short of a rare special session called by the governor and limited by our state constitution to only those topics that the governor identifies, we state Senators and Representatives of the People of Colorado have the power of our elected office for only 120 days each year. During the other eight months each year, we are citizens just like everybody else. Yes, there have even been murmurs that we should transition back to a full-time legislature.

The hell we do.

Let us not allow a once-in-a-hundred-year pandemic to cloud our judgement on this issue. Our roles here as legislators should not be divorced from the realities of everyday working Coloradans.

In November 1988, Colorado voters made the right choice. They did not want, and I believe still do not want, a full-time, year round, state legislature. As citizen legislators it is our job to represent our constituents during a 120-day general session and then we are to go home, back to our regular jobs for those who have them, and to be citizens, just like the people who we are blessed to represent.

Senate Republicans believe it is time to discuss our legislature’s role in a declared emergency, but we do not embrace the premise that our temporary circumstances should inspire us to return to a full-time legislature.

The COVID pandemic has shifted conversations about healthcare here in Colorado. It was just one year ago that those in the ruling party were labeling our hospitals as being greedy while pushing for a so-called “public option” as if involving the government to an even greater extent in the delivery of healthcare would somehow make it more affordable or more available. No, that hasn’t worked and it won’t work. If you want to make healthcare more affordable, then get the government out of that business, not more involved in it.

But, it is worth asking now – what would the statewide ICU capacity have been if the public option had been in place prior to the COVID-19 pandemic? What communities would have been without a local hospital if the public option had been passed?

Now, with public approval of our hospitals at an all-time high due to their extraordinary efforts to save lives and combat the COVID-19 virus, some in the ruling party have changed their tune. Perhaps it would be wise to heed the warnings that came from that industry. An industry that has literally saved tens of thousands of lives during this pandemic deserves to flourish in the realm of private-sector innovation, not stifled in the dusty halls of government bureaucracy.

Yes, Senate Republicans will continue to oppose so-called “public option” legislation, but are excited to bring other bills that will aim to increase transparency, bring down costs, and expand options for Coloradans without putting their local hospital at risk of closure.

We are excited to see Senator Smallwood reintroduce bipartisan legislation that will ensure that this legislature reviews the impacts of our actions on healthcare plans, taking into account how many Coloradans are impacted, expected changes in rates, and other essential information that will guide us as we work to bring down rates and expand options for all Coloradans.

Crisis like the one we are currently experiencing have a way of clarifying our thinking when it comes to governance. It provides a moment to prioritize what really matters in our society, and nothing could be closer to the top of that list than the education of our children.
COVID-19’s disastrous effects on the public education system left parents confused, anxious, and in many cases, distraught. Many parents with the resources and insight leapt into action early, finding alternative pathways to ensure their child remained educated and prepared for the lifetime ahead of them.

Unfortunately, those parents tended to be more affluent and more white. The disparity between those who were achieving and those who were struggling has only widened, and allegiance to the monolithic institutions of old has only furthered that divide. Senate Republicans recommit themselves today to the individual – the student, the parent, and the teacher, and not to those antiquated institutions.

That’s why Senator Lundeen will be bringing legislation that seeks to reallocate resources from these failing institutions directly into the hands of our parents and students to ensure that those who are not affluent and predominantly from communities of color can have the opportunity to succeed.

There is a kid today in Sun Valley – a neighborhood in Denver where the median income is just over $11,000 – who doesn’t have the same opportunities as the kid living across town in the neighborhood of Hilltop – where the median income is over $138,000.

We can help bridge that divide but it requires us to refocus ourselves on the individual – on the student. I hope my colleagues across the aisle are willing to think outside the box, to buck the norms of yesterday, so that we may be able to provide a brighter future for all students.

At the end of our extended general session last year you, Mr. President, along with Senator Fields and with input from Senators Cooke and Gardner, led the nation in law-enforcement reform legislation. Thanks to that collaborative effort, we were able to pass the largest piece of police reform legislation in generations and did so with significant, bipartisan support.

There will always be work to do on the criminal justice front, which is why Senate Republicans remain committed to ensuring that all Coloradans, regardless of their race, their creed, gender, or their background, are treated equally under the law.

To that end, Assistant Minority Leader Cooke will introduce legislation to reform “Brady Lists” – compilations of officers with disciplinary records created by individual District Attorneys – to ensure that we have clear standards for ensuring that officers who violate policy are added to the list and that those officers also receive due process.

No one in this chamber – nobody outside this chamber – wants bad law-enforcement officers patrolling our neighborhoods. We are excited to continue cultivating the bipartisan spirit that was present during the debate of Senate Bill 20-217 into this session so that we may continue to make progress on that important issue.

Senators, we have a tough road ahead of us. Welcome to the Senate, Senators Kirkmeyer, Simpson, Liston, Buckner, Coleman, Jaquez Lewis, and Kolker. Never shy away from sharing your perspective, your life experiences, your expertise, and your wisdom with us. We are excited to get to know you, work with you, and together strive for the betterment of the People who call Colorado home.

Mr. President, when you took that gavel two years ago, you stated that no party had a monopoly on good ideas. We hope this session will be another when those words become reality. Let’s not just praise bipartisanship, let’s embody it. Let us not just tell the media that we enjoy working with our colleagues across the aisle, let’s actually do so.

You were right, Mr. President, when you said we should reject Washington D.C. politics. We should reject blind partisanship as we demonstrated during the recent, three-day, special session. We should embrace debate and discourse.

I can only hope that we fulfill that potential and show the entire nation what happens when Colorado leads.

God Bless you, colleagues. May God Bless the People of Colorado and, as we sang earlier, God Bless America!

Thank you, Mr. President. And now, let’s get to work!
Senate reconvened.

On motion of Majority Leader Fenberg, and with the unanimous consent of those elected to the Senate, the above remarks of President Garcia and Minority Leader Holbert were ordered spread upon the pages of the journal.

MESSAGE FROM THE GOVERNOR

January 13, 2021
73rd General Assembly
First Regular Session
State Capitol
200 E. Colfax Avenue
Denver, Colorado 80203

Welcome to the First Regular Session of the 73rd General Assembly. I want to welcome those first-time lawmakers, and thank you for you for choosing to give back through public service; I also want to applaud our returning legislators, as well as those whose service has concluded. You came together not once, but two separate times to provide much needed relief to Coloradans. You stepped up to answer the call, even when it meant increased risk to your own health, passing legislation supporting our small businesses, providing rent and utility assistance, increasing food access, and more.

These are extraordinary times, and this legislative session will look different than many others, including the delay of our public State of the State address. I very much look forward to addressing you all in-person in February when the General Assembly reconvenes following the coming recess. For now, however, I wanted to provide a brief update on our great state following one of the most challenging years in Colorado history.
Over these last 10 months, Coloradans have been truly tested, and no one has been left untouched by this pandemic. We’ve all felt the impacts, whether economic or health related, and I’m proud of how Coloradans have reacted in the face of such challenges.

On March 5, Colorado confirmed its first case of COVID-19, and since then our lives have been transformed. In the weeks leading up to this first case, we worked closely with the Colorado Department of Public Health and Environment to prepare for when the virus would reach our state, and acted swiftly once the first case was confirmed to declare a state of emergency and initiate a statewide response that prioritized the health and safety of Coloradans.

The early weeks of the pandemic saw nationwide shortages of critical personal protective equipment (PPE) and testing supplies, and with little from the federal government, we had to create our own supply chains and secure our own equipment. We worked to negotiate key deals, including a 17-month contract with Honeywell for 6 million masks to keep our frontline health care workers safe. Over the course of this pandemic, Colorado has gone from being able to run 160 tests per day at the state lab to more than 50,000 across our public and private partners. And we were the first state in the country to stand up a drive-through testing site, followed by more than 50 community testing sites across the state.

We prioritized transparency by holding press conferences multiple times per week to give Coloradans a clear picture of our epidemiological trends, quickly establishing public facing dashboards and data visualizations, and encouraging everyone to keep #DoingMyPartCO to spread science-based information about steps Coloradans can take to protect themselves and others from the virus.

As the health crisis unfolded, the economic effects of the virus began to take form. Coloradans struggled to make ends meet, from small business owners wondering how they would stay open to Coloradans who weren’t sure where their next meal was coming from. We quickly stood up the Colorado COVID Relief Fund and partnered with the philanthropic community to help raise money to support local nonprofits and organizations working with people directly impacted by the pandemic. To date, the fund has awarded more than $23 million to nearly 1,000 organizations across all 64 counties.

Early in the crisis we assembled the Economic Stabilization and Growth Council, led by Secretary Federico Pena and other business and community leaders, and acted on their recommendations to mitigate the pandemic’s impact on our economy. We cut red tape for small businesses and streamlined government services.

In late March, after working closely with our federal delegation, Congress finally acted to provide much-needed relief through the CARES Act. We worked with legislative leadership to distribute $1.674 billion in federal funds from the CARES Act to support school districts, boost higher education institutions, help Coloradans with housing costs and food assistance, and more.

I’m incredibly proud that we were one of the first states in the country to come out of stay at home and begin slowly reopening our economy, leading to a summer of strong economic activity while successfully suppressing the virus. Due in part to that successful summer, our overall economy remains one of the strongest in the country.

And we continue doing everything we can to take care of our own. In order to help Coloradans who had been hardest hit by the pandemic, in partnership with legislative leadership, I took action to provide direct payments of $375 to more than 400,000 who had faced unemployment during the pandemic.

In addition to the urgent action we took together to address the COVID crisis, we worked together with Colorado lawmakers to pass and sign legislation to address our nation’s racial reckoning, like SB20-219, Enhance Law Enforcement Integrity Act. I also signed an executive order directing the Department of Personnel & Administration to lead efforts on furthering equity, diversity, and inclusion within our state government and will look to make additional progress on ensuring that we truly can build a Colorado for all this session.
This past year, Colorado was also hit with the largest wildfires in our state's history, forcing many Coloradans to flee from their homes, unsure if they would be able to return. Extreme statewide drought laid the foundation for these devastating fires, showing us that climate refugees don't just live on the coasts. First responders had to adapt to the reality of fighting fires while keeping themselves safe from the virus. The communities impacted are still picking up the pieces today, showing the true resilience of Coloradans and the need for continued action to address the climate crisis we face.

Over the fall, COVID cases across the nation and in Colorado started to rise once again. As we worked to manage this new wave of infections, cases and hospitalizations surged above Spring levels. While a Stay-at-Home order was effective in March, we had more isolated disease transmission in this new wave, more knowledge of the virus, and knew firsthand the economic impact that a Stay-at-Home order had on our communities. In order to help manage the crisis more locally, the state worked with local communities to create a COVID-19 dial system that coded each county based on caseloads, positivity rate, and other factors. Counties began to move further away from "green" and more towards "orange" and "red" as the winter months got closer. The hospital system began again to reach crisis levels.

After months of remote learning for many students, new evidence suggested that being out of the classroom was having a devastating effect on children and families, as well as worsening gender-based earning disparities in the workplace. There was little indication that schools were playing a large role in disease transmission, given that young children were significantly less likely to catch the virus or transmit it. Armed with more information and the advice of a new "Back-to-School Working Group", the State released a "Roadmap to In-Person Learning" with detailed steps to help every school district get back to in-person learning as soon as safely possible. As we focused on standing up the resources schools needed to be successful, we also supported innovation in education. We stood up the Response, Innovation, and Student Equity (RISE) fund to provide over $30 million to school districts, schools, higher education institutions, and partnerships that have been disproportionately impacted by COVID-19 to help them innovate and emerge stronger than before. And to ensure the classroom remains one of the safest places for our children, we are partnering with Binax to provide free, at-home testing for educators and students across the state. The program will distribute 1 million tests per month to schools across the state who opt in.

Last month, Colorado received the wonderful news that multiple highly effective vaccines had been approved for emergency use, and would be distributed to states immediately. Colorado once again moved quickly to operationalize a plan to distribute vaccines to providers, prioritizing those most at-risk, including health care workers and those 70 years of age and older, who are significantly more likely to require hospitalization and to die from the virus. It is vital that as we rapidly distribute the vaccine, we also do so through a lens that ensures equity for our communities of color, including those with less means, and those that live in hard to reach areas of our state. The unacceptable alternative will result in our black and brown communities falling further and faster behind than the rest of our state. The end is truly in sight as we work over the coming months to ensure the general population has access to the vaccine this summer.

Looking back, I am proud of how Coloradans have stepped up for each other and their communities. Time and time again, we have proven just how resilient we are as a state. This pandemic has exposed the cracks in our systems and forced us all to examine how we can do better. We have an opportunity before us to reimagine Colorado's future and rebuild in a way that truly creates a Colorado for all. I look forward to being with you all in February and providing a more thorough update on the state of our state in person. Until then, be safe and thank you for your dedication to our great state.

Sincerely,

(signed)

SIGNING OF BILLS -- RESOLUTIONS -- MEMORIALS

The President has signed: SR21-003 and 004.
The President has signed: SB21-001, 002, and 003.

MESSAGE FROM THE HOUSE

Mr. President:
The House has adopted and transmits herewith HJR21-1003 and 1004, as printed in House Journal, February 16, 2021.

On motion of Majority Leader Fenberg, and with the unanimous consent the Senate, the Senate stood in recess to hear remarks of Senate President Leroy M. Garcia and Senate Minority Leader Chris Holbert.

Senate in recess.

The text of President Garcia's remarks follow.

Good Morning, it is an honor to be here, and once again, gather beneath the golden dome of our democracy.
While in many ways it is just a building, not unlike the countless others across our nation’s capitals, we are reminded of its symbolic significance and the sacrifice necessary to keep it standing.

Our forefathers once dreamt of places like this one.

Trapped under the heel of totalitarian rule, they imagined a day when buildings would be erected to foster great debate of free people.

They envisioned a nation where the limited circumstances of your birth would not dictate the magnitude of your destiny.

And now, some 250 years later, we are reminded that the liberty we hold dear is still in need of safeguarding.

Democracy and freedom may be the foundation of our country’s inception but they are not indestructible, they are not a guarantee.

It takes ALL of us, every-single-day, striving to live up to the transcendent ideals of our republic, in order to keep it.

This task has been handed down through the generations - in war times and in peace, in recession and in prosperity, in devastation and in growth.

Despite struggles or ease, this body is responsible for reaching beyond the hardships of our present moment towards a future of greater opportunity.

We begin the 73rd General Assembly not as we hoped a year ago. Weathered by storms, we are a different body, a different state, a different nation than we once were.

We are all sobered by the losses we have faced, and yet our devotion and commitment to the immense task before us remains unaltered.

I want to thank you all for the dedication you have shown during this harrowing time. Without the resilience of your resolve, our state would not be experiencing the improvements we are seeing today.

I especially want to thank the Majority Leader, the Minority Leader, and each of you for your partnership and collaboration in navigating one of the most tumultuous legislative years to date.

More importantly, I would like to take a moment to thank our frontline workers and community heroes who have braved this storm unflinchingly.

Battered by the relentless winds and torrential rains of this pandemic, nurses, doctors, emergency responders... teachers, grocery clerks, sanitation teams... postal workers, daycare providers, and elderly caregivers have selflessly served OUR community and country during one of the most heartbreaking times in our history - putting the well-being of others before their own and pressed forward even in the darkest of hours.

Your courage, sacrifice, and selfless devotion will be remembered long after the murals of you - painted on city walls all across this country - fade with time.

Because the virtuous compassion of your contribution inspired a nation- when all hope seemed lost. It is what reminded us of our greater connectedness and gave us hope for the future.

Hope, that in many ways, can be hard to come by. For a crisis has borne down on us with unrelenting force and has persisted, to this very day, to tear apart our economy, upend our lives, and rob us of our loved ones.

Meanwhile, a different battle has raged on another front, one of violence, division, and hatred.

We are war-torn, not by the hands of a foreign adversary, but by the malice grown from within.

Brother turned against brother, we have walked the treacherous tightrope over ultimate destruction - reminded once again of the dire consequences of a nation divided.

While political tribalism is nothing new, the mechanism in which it is grown has become all too pervasive. With the click of a button, we can enter a world that confirms our worst fears and breeds bitter bias. We sit in echo chambers created by companies that magnify our differences and profit from our fear.

And somehow in the mess of it all, some leaders in government have decided that fanning the flames of hatred is more politically viable than standing up for what is right, good, and true.
This selfish allegiance to political expediency, though newly inflated, has been around for generations, creating a system that props up the wealthy and penalizes the poor, an economy that siphons hard work by the many to create power for the few...

So let us be clear, our road to recovery and reconciliation is littered with daunting challenges. Challenges that will not be solved painlessly or mastered overnight. And yet, with a persistent and steady determination, they will be overcome...

Today, we gather to recommit ourselves to this task.

We come ready and willing to not just recover from this pandemic and the civil discord that has gripped our nation - but build back a stronger, more just Colorado...

A Colorado that upholds the principles of freedom, equity, and opportunity.

A Colorado that dares to carry on our great tradition of bold leadership - because at our core we are pioneers - frontiersmen - the legacy of a daring few who braved the unknown in search of a brighter future.

But it is no longer the rugged terrain that begs to be bested, it is the frontline of social, political, and environmental progress.

Like the wilderness of the west, this pursuit is not for the timid. For it requires a visionary's creativity - a sage's wisdom - and a trailblazer's courage.

It asks us to toil until our backs ache; to dig deep; to reach high; to heal wounds and repair breaks. It asks us to remember that we are greater together than apart.

Every generation has had their hill to climb - this is ours.

We stand at the foot of a monstrous recovery mission, but before weariness weighs down our feet, we must remember how far we've come.

With finite funds, we were able to join together and work across the aisle to deliver results for our state - passing meaningful legislation to address child care shortages, utility costs, and food insecurity.

We prioritized struggling Coloradans and small businesses by allocating millions in historic housing relief and rescue grants.

We protected workers from retaliation, ensured employers offered paid sick leave, and expanded access to unemployment insurance, in a time when so many have lost their jobs.

We revised unfair tax policies that overburdened hardworking families and shielded powerful corporations.

And we passed the most ambitious policy proposal addressing police violence in the country.

But our work is far from over. We are still in the midst of a crisis.

Over five thousand Coloradans have died from COVID-19 and hundreds more are currently hospitalized.

Too many people are still out of work and facing inconsistent and inadequate unemployment support.

Too many children go to bed hungry. Too many families face eviction. Too many businesses contemplate closure.

We must stop the bleeding. We must urgently respond to the needs of our state: rescuing Main Street from financial ruin, providing relief to anxious tenants in need of next month's rent, replenishing community resources that serve the weary and jobless.

We must help schools reopen and address the mental health burdens of our residents.

We must bolster vaccine distribution and ensure every Coloradan has access to this life-saving protection.

We must. And We Will.

Because resilience is the path that promises reward. A path that is not a stranger to us but rather covered with our footprints...
For there have been many times in our history when we could have given up, when we could have turned on each other forever. But instead, we found it in ourselves to not only press on, but offer a hand, understanding that we rise and fall as one.

Like the trials of previous generations, this pandemic has and will make us stronger, but it will also make us more connected, more human. Not because such a conclusion is a given but because we can choose to alchemize pain into purpose.

This last year may have been defined by darkness and loss, but what was often missed was the quiet comradery and kindness felt between each other: a college student delivering groceries to an elderly neighbor, a factory worker cutting their own hours to keep a colleague from losing their job, a husband serenading his wife outside her hospital window.

Pain certainly has the power to drive us apart. But it also has the power to bring us together.

So where some see only devastation, we will see an opportunity for compassion, for the forging of tighter bonds. Because we direct our own destiny and write our own story.

We will turn the page of this disaster to one of replenishment and renewal.

We will eliminate the threat of this virus, returning to our loved ones and embracing our community.

We will revitalize our economy, creating jobs and planting seeds for new growth.

We will restore our community pillars - strengthening our schools and supporting our kids...

But this journey is not only about restoration. It is about reimagination. From the ashes, we are presented with a precious gift. A gift of rebirth. An opportunity for transformation.

It is still ours to receive or reject.

We must choose.

Will we simply rebuild the structures that stood before?

Or will we remake our future - righting the wrongs of the past and fulfilling the promises of our predecessors?

I believe we will choose the latter.

For from the fire is born, fertile soil.

We will use this devastation to re-envision a community built on stronger ground.

We will redesign a system that protects justice for ALL - confronting the stain of systemic racism and bringing equity to the dark corners of our institutions.

We will rescue the planet we put in peril - utilizing clean energy to create jobs and rid our skies of toxic pollution.

We will build a health care system that is people-focused rather than profit-hungry and ensure that EVERYONE, no matter their socioeconomic status, has access to the medicine they need.

Now there are those that scoff at the breadth of our plans and the hope in our hearts. They roll their eyes at our ambitions and recite the same tired lines of disbelief.

But they forget, the shoulders we stand on today were once just dreams of a generation before us. 100 years ago women were not allowed the right to vote, 60 years ago our country was racially segregated, 20 years ago utility-scale solar farms didn't exist, 6 years ago gay marriage was prohibited, and until this year, no woman had ever held national executive office...

Don't tell me things can't change. Despite all of our faults and failings, we have made progress. People have chosen, CHOSEN to press forward, believing against all odds that our journey has an upward trajectory.

There is nothing different today about the choices WE face. We cannot let cynicism harden our hearts and limit our imaginations. Because we are charged with shepherding our communities through this crisis - and we cannot derail our aspirations, but rather we must hold fast to greater possibilities.
Following the Great Depression, Social Security was born. After WWII came the GI Bill.
Crises have the potential to be springboards if we let them.
But this does require us to put down our arms and find commonality.
So let's not just talk about unity and healing... let's demonstrate it - with every word, with every action.
Let's remember that the distance between us appears wider than it really is.
For justice, dignity, integrity, freedom, and opportunity, are NOT party values, they are American values. And while we may fail to reach them at times... our collective pursuit and dedication to their summit is what makes America a beacon to the world.
And WITHIN that beacon burns...the bright light of Colorado, where we prove, time and time again our ingenuity and strength.
Where we step forward to herald a new dawn when no one else sees the light.
So... though our hurdles loom large and our resources remain small, there is no limit to what we can achieve this session.
We have already come so far, let us not forget in the eleventh hour that we are indivisibly bound.
It is the illusion of separateness that clouds our judgment and pits us against one another. And yet it is our's individually to remove.
And in so doing, let us begin again...
Much like that fateful spring day, still marred by winter, on which our towering forefather spoke to a fractured nation. After so much bloodshed. After so much pain, he took to the podium to proclaim:
"With malice toward none; with charity for all; with firmness in the right... let us strive on to finish the work we are in; to bind up the nation's wounds; to care for him who shall have borne the battle...to do all which may achieve and cherish a just and lasting peace."

Today is the day that we reaffirm our commitment, gather our strength, and continue the work of rebuilding our great state.

Thank you.

President Garcia recognized Minority Leader Holbert to address the Senate

The text of Minority Leader Holbert's remarks follow.

Thank you Mr. President. On December 4th, 2020. The Denver Post Editorial Board wrote "Colorado lawmakers show Congress how coronavirus relief should be done. In a 3 day Special Session with limited resources, the Colorado General Assembly did more for Coloradans than Congress had since last March." Given my political views, I find it somewhat common to disagree with the Denver Post Editorial Board, but on that one I say yes, I say thank you. Mr. President I say thank you to you, major Leader, and all the members of the Senate. And even our friends in the lower chamber across the way. Yes, in those 3 days, we did more for Coloradans than Congress had last year. We can do that again.

It's an interesting dynamic that we're in here currently, because given press today, last Friday, and recent days, it seems like we Senators, we 35 select people from around Colorado might be in more agreement then disagreement. On the first opening day of this session I said thank you to the members of the Joint Budget Committee and I will say thank you again. It seems thus far, that the legislative branch is thinking more alike than different. It seems like the legislative branch might be thinking more alike and maybe finding some disagreement or at least some concern with the Executive branch. And I appreciate that. We don't know what the answers are yet, but Governor Polis has continued to speak about stimulus spending. And that's certainly a motivation for us all, we did that in that 3 day special session. We came back because we had more dollars than we thought we would, after we reduced our expectation of dollars by about 3
billion of those dollars. Stimulus spending will definitely be a topic, a major topic, and it is enticing to start talking about new ways that we can spend dollars. But let us not forget, members, Mr. President, we cut spending last spring. The Joint Budget Committee did that. I believe I've mentioned before, I received an email from a constituent right after we adjourned on June 15th, and he said "cut spending before proposing to raise taxes!" and I wrote back "that's exactly what we did." And yet I think many people in Colorado don't know that or if they hear those words, they don't believe it. But our state constitution requires that. We are not Congress, we can only allocate and spend the dollars that we will actually have and through this complex process of looking out a year to the next fiscal year that starts July 1st and guessing, projecting, estimating how many dollars we will have. Our Joint Budget Committee now has the task of figure setting and preparing the next budget based on guesses for revenue for that next fiscal year and before that, we will have a series of supplemental bills based on actual revenues that we've actually started to collect. So that special session that we had, those 3 days at the end of November and beginning of December, we did spend money effectively for the people of Colorado because we had more dollars than we thought we would after we ratcheted down those estimates by some $3 billion. We know that Congress is now prepared to take action, the action that the Denver Post Editorial Board said that they didn't take last year. It looks like they're about to take action to the tune of $2 trillion. What does that mean for Colorado? The estimates that I've heard would be about $5 billion. $5 billion is a lot for us. Our guess last year was that we were going to be looking at a fiscal year with $11-12 billion and we had to ratchet that down by about $3, 3.5 billion to somewhere around $8.5 billion. We're coming in a little bit above that but that's a lot less than 11 or 12, and if we get $5 billion or so from the Federal government, that's a lot.

Our ask from the Senate Minority caucus is lets continue to have those discussions about stimulus spending but, and this is where I think we're starting to see some agreement in the press, let's wait until we actually know the dollars we'll have, the actual dollars. I've heard the phrase, don't count your chickens before until they hatch. Lets make sure we even have eggs before we count the eggs before they become chickens. If we've got $5 billion coming from congress, from the Federal government, that's good news for us. We believe in the Senate Minority caucus, that our focus should first be restoring where the cuts were made. I can't help but think back to the days where Republicans held the Governor's office and a majority in both legislative chambers. I can't help but think back to times where I and my caucus have said lets have at least $400 million a year for transportation funding, specific for roads and bridges and I remember being accused that I or we Republicans didn't care about teachers and kids. That taking a dollar away from K-12 and putting it into roads and bridges meant that somehow we had less compassion or concern for public education, and that was not true then and is not true now. We are not going to levy that accusation against members of the Joint Budget Committee no matter what political designation letter you have by your name. This is a challenging time for Colorado and we met that challenge during the special session and we're prepared to meet that challenge now but our ask is let's not start allocating, let's not start committing stimulus dollars that we don't have yet. If we get them, great.

Education funding: we're told that there's some 30,000 students who've gone missing. Were they actually there before? Has count day worked correctly? Were any of those students counted twice or were any students not counted? This has been an ongoing discussion for those who have served on the Education committees. Count day is not a perfect science and Covid has certainly effected that. If there are 30,000 students less in the count, if PPR is about $8,000 each, that's a lot of money, that's like $240 million. That's a lot of money for us, where did those students go? Did they move to a different state, did they go to private, are they home schooling? Is this a temporary issue, is it going to last for this school year or 2 or 3 years? Will that 30,000 student shift be a 5 year issue or 10 year issue? What about the negative factor, excuse me the budget stabilization factor, we changed the label for that a few years ago. We still got an IOU that's 11, 12 years old that we haven't paid back and last spring because we had to, we had to reduce funding. So now we hear that we're going to hold the 178 school districts harmless, hold them harmless. Okay. What does that mean? If we look at education funding in Colorado we know from experience that we compare very often, our PPR is compared to total funding in other states. The way the states count dollars for K-12, there's not some uniform way that all 50 states and the District of Columbia and Guam and the US Virgin Islands and the other territories count it. Here's a list that's become known yearly when I ask for it, as the Holbert spreadsheet, I asked for this first when I was on House Education and what it shows is PPR over here on the left side, and total funding over on the right. Total funding, yep. Because PPR doesn't equate to total funding. For some school districts, the PPR, the per pupil revenue, is close to 100% of the total funding for a given district. For 3 of them, a reporter reminded me just recently, for 3 of them it's just about zero. Why? Because there's 3 school districts that exist where mining, and severance tax, and property taxes are the primary source of funding for those 3 school districts. So when we say we're going to hold harmless those 178 school districts because 30,000 students have gone missing, what does that mean? What does it mean, are we going to hold the 178 harmless for 100% of their funding or just our portion of the funding? We don't know. But, I'm not here to point fingers, I guess I just did it myself but I don't know. Republicans are here to ask the questions, that's one of the reasons we asked the Governor to call a special session last August but that was conveniently dismissed as a political stunt. Well it
I've been asked many times, what about our priorities, and that's frustrating. Being in the Minority, the Constitutional math, you all know this, the public doesn't always remember this: the Majority, you can pass whatever bill you want to and we don't even need to show up. We will show up, but to the constituents out there in Colorado, who will inevitably start emailing, calling or asking questions in face to face meetings "why do you lack the backbone to deny quorum? Don't show up, refuse to vote." That works in some state legislatures, it doesn't work in this one. Our Constitution defines the quorum requirement, how many people need to be in the chamber as a simple majority and the math right now is, the Majority has 20 members and the Minority has 15. A simple majority in this chamber is 18 so, if the 15 of us go to Wyoming and refuse to come to the Capitol and refuse to vote, you all can start business on your own and pass any bill you want to just as you can when we're here. So, to the people of Colorado, when we disagree on things we will be here at this mic. We will speak as long as we possibly can to the bill because we can't filibuster in Colorado we have to actually speak to the bill but we will put our best effort forward to draw out that conversation, to make the points. But, don't be surprised, over the next 116 days and 120 next year, we'll probably see a lot of decisions made on a vote of, oh give or take a few 20-15. Surprising to anyone here? No.

As the Minority, we're not here just to fight. We're not. And we saw that in the Special Session, but as members of the Minority we call upon you Mr. President, Mr. Majority Leader, members of the Majority, we are encouraged by what we think we hear about stimulus spending. We're encouraged by what we think we hear about not spending the stimulus dollars until we actually have it because if we start allocating $5 billion with the anticipation of getting them and then we don't, we can't dig our way out of that hole. So we want to be cautious, we're known as conservative, you generally known as liberal. If we can find a way to be a little bit more like us, that was an influence. We would like to have a conversation about future emergencies, we're asking the question. 90 days? 6 months? A year? We're a part time citizen emergency. That died in committee, that's off the table. We understand 30 days is too frequent. And, we're not interested in trying to affect this declared disaster emergency but members, do we have 11 months of experience now that we can draw upon for the future? Yes we do. When the current statutes, when the current legislative rules were drafted, did that have more to do with what happened on September 11, 2001 than a pandemic and wearing masks? Why yes, yes that was an influence. We would like to have a conversation about future emergencies, we're asking the question. 90 days? 6 months? A year? We're a part time citizen legislature, we're not here 8 months a year. If we're back in this kind of situation in the future, should at some point, we be required to come in and review the situation? For instance, rulemaking. We have a rule review bill every year, hundreds of rules. We the Legislative Branch delegate the authority, the Executive Branch, to make those rules. Apparently there's no such oversight when it comes to Governor's Executive Orders. Did any of you ever anticipate that we would have a Governor issuing over 300 Executive Orders over a year long period? I'll admit if you were to ask me last year I would've said no. Snowstorms, floods, wildfires, unfortunately those things don't last that long but now we have this experience. Should we stand up as a Legislative Branch and say yeah, we should come back after 6 months or 9 months or some time period and look at the effect of those rules made by Executive Order. That's not stepping on the man who happens, the authority of the man who happens to sit in the Governor's seat right now, that's asking a future question.

We as Coloradans, where should our Legislative Branch be in that dynamic? Have you heard from constituents who ask you why you decided to open hair salons at 50% of the posted occupancy, or 10 people, whichever is less? Have you had to explain to them that you didn't make that decision? I have. Have you talked to constituents, maybe people who work at restaurants or bars or breweries, why did we cap their capacity a certain percentage? We didn't do that. How about the distribution of vaccines. Have you talked to anyone about the plan to distribute the vaccine and why they didn't like it and asked you why you did it that way and then you had to explain you didn't? I'm not here to blame Governor Polis and his administration. I'm saying that our, the people who will sit in our seats in the future, if they are faced with a pandemic, let's not put them in the same situation, let's give them some ability to respond as a Legislative Branch.

Finally Mr. President. I think that what we seek as the Minority caucus is to get Government out of the way. I can't wait, I cannot wait to be at an Avs game. I'm a hockey fan first, Broncos
are awesome but I love hockey. To be back at now what is Ball arena to watch the Avs with a full arena without these on, maybe spill a beer on each other yelling and screaming. I can't wait to be back in that environment, but we're not there yet. Senate Republicans are not asking for more government, not asking for government to continue to tell the people of Colorado what they can't do. But we're here to do is find ways that we can get beyond this pandemic, beyond Covid-19. I agree with you Mr. President we will find a way that this will be in the past. The first step is getting our kids back into face to face live teaching in school. That will allow parents, especially single parents, to get back to work. And then when people can get back to work, employers can start hiring, can get people back into their offices, back into those work places. Our world I think will change permanently. Remote participation, that's going to be a bigger deal. We'll probably see our lease obligation for the state go down. I've heard the Governor estimate maybe 20-30%. Hey, there's more dollars for education. Senate Republicans are looking forward to the opportunity to work together on these things but just to start where I ended or end where I started excuse me, the other way around. Want to be very careful that we don't start over promising and under delivering. If there's 5 billion dollars Federal coming, they can deficit spend and they do. We can't. If there's one blessing that I've found over the past 11 months in this pandemic, it is the opportunity to explain to constituents how their state legislature is so different from the one out in Washington D.C. I explain to people that we have one bill we have to pass by the Constitution every year and that's the budget and the budget must be balanced. And the most frequent follow up question is "what's the deficit?" Let me explain what balance means, no offense bosses. It's so different and I wish the press would write about it more so people will say wow I live in a state that doesn't carry long term debt like that, we don't have deficit spending, we can't borrow. But if Congress decides to do this $1.9 or $2 trillion stimulus and there's $5 billion coming, we're going to have a lot to do. What we're asking is let's restore the cuts that had to made last spring before we find new ways to spend money. Does that mean we don't care about people getting back to work? No we do. I think the best thing we can do is get the schools back open, found them adequately, maybe even cut into that negative factor. But let's restore where we cut first before we imagine new ways to spend money. Mr. President, we did it during the special session, I think we showed again during the first 3 days of this session, as we venture into day 4 with 116 left, we can get this done. Mr. President, let's get to work. Thank you.

Senate reconvened.

On motion of Majority Leader Fenberg and with unanimous consent of the Senate, the above remarks were ordered spread upon the pages of the journal.

40-2-126. Transmission facilities - biennial review - energy resource zones - definition - plans - approval - cost recovery. (3) The commission may, consistent with its authority, approve a utility's application for a certificate of public convenience and necessity for the cost-effective construction or expansion of transmission facilities pursuant to paragraph (b) of subsection (2) of this section if the commission finds that:

(a) The construction or expansion:

(I) Is required to:

(A) Ensure the reliable delivery of electricity to Colorado consumers, or to either alone or in combination with the consumers of other states served by an organized wholesale market as defined in section 40-5-108 (1)(a); or

(B) Enable the utility to meet the renewable energy standards set forth in section 40-2-124 or achieve emission reductions under section 25-7-102 or 40-2-125.5;

(II) Can reasonably accommodate future expansion, through the addition of more lines or greater capacity, as may be required to support the utility's participation in an organized wholesale market as defined in section 40-5-108 (1)(a); and

(4) Notwithstanding any other provision of law, in response to any application for a certificate of public convenience and necessity for the construction or expansion of transmission facilities that is submitted to the commission pursuant to subsection (2)(d) of this section, the commission shall issue a final order within one hundred eighty days after the application is deemed complete and public notice of the application is given, except that the applicant may waive this one-hundred-eighty-day deadline. Absent such waiver, if the commission does not issue a final order within that period, the application is deemed approved.

(5) In any construction or expansion approved pursuant to this section, the utility shall use its own employees or qualified contractors, or both, but shall not use a contractor unless the contractor's employees have access to an apprenticeship program registered with the United States Department of Labor's office of apprenticeship or by a state apprenticeship council recognized by that office, except that this apprenticeship requirement does not apply to:

(a) The design, planning, or engineering of the transmission facilities;

(II) SAFE WORK PRACTICES; AND 
(III) EMERGENCY PROCEDURES;
(s) ISSUE BONDS AS NECESSARY TO UNDERTAKE A PROJECT;
(t) COLLECT PAYMENTS OF REASONABLE RATES, FEES, INTEREST, OR 
OTHER CHARGES FROM PERSONS USING ELIGIBLE FACILITIES TO FINANCE 
ELIGIBLE FACILITIES AND FOR OTHER SERVICES RENDERED BY THE AUTHORITY, 
SUBJECT TO THE REQUIREMENT THAT ANY REVENUE DERIVED FROM PAYMENTS
MADE TO THE AUTHORITY SHALL BE DEPOSITED IN THE ELECTRIC TRANSMISSION BONDING FUND;

(u) MAKE DETERMINATIONS ABOUT THE EFFICIENT USE OF EXISTING RIGHTS-OF-WAY ON PROJECTS IT PROPOSES TO DEVELOP AS A PRECONDITION TO PIONEERING NEW RIGHTS-OF-WAY FOR SUCH PROJECTS; AND

(v) DO ANY AND ALL THINGS NECESSARY OR CONVENIENT TO CARRY OUT ITS PURPOSES AND EXERCISE THE POWERS GIVEN AND GRANTED IN THIS ARTICLE 42.

(2) EXCEPT AS PROVIDED IN THIS SUBSECTION (2), THE AUTHORITY SHALL NOT ENTER INTO A PROGRAM IF AN ELECTRIC UTILITY OR A NONINCUMBENT TRANSMISSION PROVIDER OR OTHER ENTITY IS CONSTRUCTING OR HAS CONSTRUCTED THE FACILITIES OR IS PROVIDING THE SERVICES CONTEMPLATED BY THE AUTHORITY. BEFORE THE AUTHORITY ENTERS INTO A PROGRAM, THE FOLLOWING PROCEDURAL REQUIREMENTS MUST BE MET:

(a) The authority shall provide to each electric utility and the commission and publish at least once in a newspaper of general circulation in Colorado, at least once in a newspaper of general circulation in the area where the eligible facilities will be located, and continuously on a publicly accessible web page maintained by the authority an initial notice describing the project that the authority is considering.

(b) Any person with an interest that may be affected by the proposed project has thirty days after the date of the last printed publication of the initial notice to submit a written challenge concerning the proposed project to the authority. If the authority receives a challenge within the thirty days, the authority shall hold a public hearing no sooner than thirty days after receiving the challenge and at least two weeks after posting notice of the hearing in the same newspapers in which and web page on which the initial notice was given. Following the public hearing, the authority shall make a final determination on whether the authority will implement the proposed project and give notice of the determination in the same newspapers and on the same web page as the initial notice given. Any person or governmental entity participating in the hearing may appeal the final determination by filing a notice of appeal with the district court for the city and county of Denver within thirty-five days after the date of the final determination.

(c) Electric utilities and other persons willing and able to provide money for, acquire, maintain, and operate the eligible facilities described in the notice have the following period within which to notify the authority of intention and ability to provide money for, acquire, maintain, and operate the eligible facilities described in the notice:

(I) Within ninety days after the date of the last printed publication of the initial notice if no challenge is received pursuant to subsection (2)(b) of this section; or

(II) Within ninety days after the date of the notice of determination if a challenge is received pursuant to subsection (2)(b) of this section.

(d) Absent notification by an electric utility or other person pursuant to subsection (2)(c) of this section, or if a person, having given notice of intention to provide money for, acquire, maintain, and operate the eligible facilities contemplated by the authority, fails to make a good-faith effort to begin to do so within six months after the date the person notified the authority of its intention, the authority may proceed to finance, plan, acquire, maintain, and operate the eligible facilities originally contemplated. However, a person that, within the time required, has made necessary applications to acquire federal, state, local, or private permits, certificates, or other approvals necessary to acquire the eligible facilities is deemed to have commenced the acquisition as long as the person diligently pursues the permits, certificates, or other approvals.

(3) In soliciting and entering into contracts for the transmission or storage of electricity, the authority and any person leasing or operating eligible facilities financed or acquired by the authority shall, if practicable, give priority to those contracts that will transmit or store electricity to be sold and consumed in Colorado.

(4) Neither the authority nor any eligible facilities acquired by the authority are subject to the supervision, regulation, control, or jurisdiction of the commission.
(5) (a) Ownership of eligible facilities by the authority may not exceed the extent and duration necessary or useful to promote the public interest. Before becoming an owner or partial owner of an eligible facility, the authority shall develop a plan identifying:

(I) the public purposes of the authority's ownership;
(II) the conditions that would make the authority's ownership no longer necessary for accomplishing those public purposes; and
(III) a plan to divest the authority of ownership of the facility as soon as economically prudent once those conditions occur.

(b) For eligible facilities that are leased to another entity by the authority, at the end of the lease, absent default by the lessee, the authority shall convey its interest in the facilities to the lessee at a price that reflects the current fair market value.

(c) Eligible facilities owned by the authority are subject to the requirements of valuation and taxation as set forth in articles 4 and 5 of title 39.

(d) Neither the authority nor any energy assets owned or controlled by the authority or any electric utility, other than municipal utilities or power authorities, pursuant to this article 42 are exempt from property taxes.

(6) (a) An electric utility that is subject to rate regulation by the commission may recover the capital cost of a project undertaken pursuant to this article 42 from its retail customers only if the project has received a certificate of public convenience and necessity from the commission. An electric utility that is a municipally owned utility exempt from regulation by the commission may recover such costs only if the project has been approved by the governing body of the municipality. A cooperative electric association exempt from regulation by the commission may recover such costs only if the project has been approved by the board of directors of the cooperative electric association.

(b) Costs associated with a project undertaken pursuant to this article 42 are not recoverable from retail utility customers except to the extent the costs are prudently incurred and the project is used and useful in serving those customers.

(7) The authority may sell any of its facilities to a Colorado electric utility.

(8) The authority may petition the FERC for a clarification of the exclusive or concurrent jurisdiction of the FERC over any matter considered or action taken by the authority under this article 42. The general assembly declares its intent that the authority and the commission be able to carry out their powers and duties to the broadest extent possible, consistent with principles of federalism, to achieve the goals and effectuate the purposes of this article 42.

(9) Nothing in this section waives or supersedes the application of section 29-20-108 or 40-5-101 (3) to a project proposed or developed by the authority.

This article 42 is, without reference to any other law, full authority for the issuance and sale of bonds. Bonds have all the qualities of investment securities under the "Uniform Commercial Code", title 4, and shall not be deemed invalid for any irregularity or defect or be contestable in the hands of bona fide purchasers or holders of the bonds for value.

(2) (a) Bonds may be executed and delivered by the authority at such times; may be in such form and denominations and include such terms and maturities; may be subject to optional or mandatory redemption prior to maturity with or without a premium; may be in fully registered form or bearer form registrable as to principal or interest or both; may bear such conversion privileges; may be payable in such installments and at such times not exceeding thirty years; may be payable at such place or places whether within or without the state; may bear interest at such rate or rates per annum, which may be fixed or vary according to index, procedure, or formula or as determined by the authority or its agents, without regard to any

SB21-208 by Senator(s) Moreno, Hansen, Rankin; also Representative(s) Herod, McCluskie, Ransom-

Concerning the transfer of one hundred million dollars from the general fund to the state education fund.

Senator Coiram moved to amend the report of the Committee of the Whole to show that the following Coram floor amendment, (L.001) to SB21-208, did pass.

Amend printed bill, page 2, line 7, after the period add "FIVE MILLION DOLLARS OF THE MONEY TRANSFERRED TO THE STATE EDUCATION FUND SHALL BE APPROPRIATED TO THE DEPARTMENT OF EDUCATION FOR THE SAFE TO RIDE BUS DISINFECTING PROGRAM CREATED IN SECTION 22-2-146.

SECTION 2. In Colorado Revised Statutes, add 22-2-146 as follows:

22-2-146. Safe to ride school bus disinfecting pilot program - creation - use of funds - gifts, grants, and donations - rules - legislative declaration - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Antimicrobial products" means products that are registered on the federal environmental protection agency's "List-N" to kill ninety-nine percent of bacteria, fungi, and viruses; are hospital-grade, with the lowest toxicity rating available from the federal environmental protection agency; leave no chemical residue and if not need to be wiped after application; have a safe, stable shelf-life of eighteen months; are noncorrosive, noncaustic, and void of harsh chemicals or fumes; pose no health threat to students or staff; require no personal protective equipment for proper handling and use; and may safely be used on food contact surfaces without rinsing.

(b) "Pilot program" means the safe to ride school bus disinfecting pilot program created in subsection (2) of this section.

(c) "Pilot program administrator" means the pilot program administrator selected by the department pursuant to subsection (5) of this section.

(d) "Rural school district" means a school district that the department determines is rural based on the geographic size of the district and the distance from the nearest large, urbanized area.

(e) "School district" means a school district organized and existing pursuant to law but does not include a local district college.

(2) There is created in the department the safe to ride school bus disinfecting pilot program to provide grants to school districts to increase the safety of students and staff through the use of antimicrobial products to disinfect school buses without harming students or staff. The pilot program is a three-year program; except that the program may be extended if the department receives gifts, grants, or donations to continue the pilot program.

(3) The state board shall promulgate rules necessary for the implementation of the pilot program, including but not limited to a simplified application process for school districts to apply for grants; the time frame for the application and award of grants; a process for achieving a balanced distribution of grant money to rural school districts, urban school districts, and suburban school districts; the process for selecting and retaining a pilot program administrator, the schedule of payments to the pilot program administrator, and the method for ensuring that the pilot program administrator is in compliance with its duties; and allowable uses of grant money.

(4) (a) To be eligible for a grant, in addition to other requirements specified by state board rule, a school district's application must include a summary of the school bus transportation provided by the school district, a description of the school bus health and safety challenges faced by the school district, and how the school district intends to use the grant money to provide safe transportation for students.

(b) Subject to available appropriations, the department shall award grants to selected school districts to participate in the pilot program. If additional appropriations or gifts, grants, or donations become available, the department may award grants to additional school districts.

(c) In addition to any uses specified by state board rule, a
SCHOOL DISTRICT SHALL USE THE GRANT MONEY TO PURCHASE ELECTROSTATIC SPRAYERS AND QUALIFYING ANTIMICROBIAL PRODUCTS, AS WELL AS OTHER NECESSARY PRODUCTS FOR EACH SCHOOL BUS AS DETERMINED IN CONSULTATION WITH THE PILOT PROGRAM ADMINISTRATOR, FOR TRAINING RELATED TO EQUIPMENT ACQUIRED THROUGH THE PILOT PROGRAM, AND REPORT TO THE DEPARTMENT AT THE END OF THE PILOT PROGRAM AS TO THE EFFECTIVENESS OF THE PILOT PROGRAM IN PROVIDING SAFE TRANSPORTATION FOR STUDENTS.

(5) (a) Subject to available appropriations, within thirty days after the effective date of this section, the Department shall issue a request for proposals for a Pilot Program Administrator and shall select the Pilot Program Administrator within thirty days after the deadline for submitting proposals. The Pilot Program Administrator may receive up to eight percent of the money appropriated for the Pilot Program. An eligible Pilot Program Administrator must be a nonprofit corporation, as defined in Section 7-121-401, or public benefit corporation, as defined in Section 7-101-503, that operates with a charitable purpose, and be able to assign staff to administer the Pilot Program who have at least ten years of experience in evidence-based school bus safety and surface transportation security, child safety campaign development, public service campaigns supported by government and media, and the proven ability to seek and obtain funds from the federal government, nongovernmental entities, and corporate sponsorships in order to secure gifts, grants, and donations for the pilot program. The pilot program administrator must also be able to develop and maintain a website with online service materials for school districts participating in the pilot program.

(b) Once selected, the Pilot Program Administrator shall support school districts participating in the pilot program, as outlined in the contract with the Department, which support must include but is not limited to assessing school district equipment and antimicrobial product needs; making recommendations for equipment and antimicrobial product vendors; providing training relating to the equipment and antimicrobial products purchased with grant money; performing quarterly reviews of the pilot program with public reports, including verification of the efficacy of the disinfection program and the eradication of pathogens without harm to students and staff; and assisting the Department and school districts in securing ongoing funding for the pilot program through gifts, grants, and donations.

(6) (a) The General Assembly shall appropriate five million dollars from the state education fund created in section 17(4) of Article IX of the state constitution to implement the Pilot Program. The Department may retain up to two percent of the total amount appropriated to the Department for the Pilot Program to perform the duties not required of the Pilot Program Administrator and to supervise the Pilot Program Administrator. The Department may expend up to eight percent of the money appropriated to the Department for the Pilot Program to contract with the Pilot Program Administrator.

(b) Any unexpended and unencumbered money from the appropriation for the state fiscal year 2021-22 made for the purposes of this section remains available for expenditure by the Department for the purposes of this section for the next two fiscal years without further appropriation.

(c) The Department may seek, accept, and expend gifts, grants, or donations from private or public sources for the purposes of this section.

(d) The General Assembly declares that, for purposes of section 17 of Article IX of the state constitution, the safe to ride school bus disinfecting pilot program created in this section is an important element in improving student safety and may therefore receive funding from the state education fund created in section 17(4) of Article IX of the state constitution.

SECTION 3. Appropriation. For the 2021-22 state fiscal year, $5,000,000 is appropriated to the department of education. This appropriation is from the state education fund created in section 17(4)(a) of Article IX of the state constitution. To implement this act, the department may use this appropriation for the safe to ride school bus disinfecting pilot program."
Renumber succeeding section accordingly.

Accordingly, it is the general assembly's intent that the department of corrections take necessary measures to establish separate housing for female and male offenders who are sentenced to the youthful offender system without compromising the equitable treatment of either.

(2) (a)(I) A juvenile may be sentenced to the youthful offender system created pursuant to this section under the circumstances set forth in section 19-2.5-801 (5)(a)(I) or 19-2.5-802 (1)(d)(I)(B). A young adult offender may be sentenced to the youthful offender system created pursuant to...

offender system, including a period of community supervision. The court shall
6
impose any such sentence to the youthful offender system for a determinate
7
period of not fewer than two years nor more than six years; except that a
8
juvenile or young adult offender convicted of a class 2 felony may be sentenced
9
for a determinate period of up to seven years. In imposing the sentence, the
10
court shall grant authority to the department of corrections to place the offender
11
under a period of community supervision for a period of not fewer than six
12
months and up to twelve months any time after the date on which the offender
13
has twelve months remaining to complete the determinate sentence. The court
14
may award an offender sentenced to the youthful offender system credit for
15
presentence confinement; except that such credit shall not reduce the offender's
16
actual time served in the youthful offender system to fewer than two years. The
17
court shall have a presentence investigation conducted before sentencing a
18
juvenile or young adult offender pursuant to this section. Upon the request of
19
either the prosecution or the defense, the presentence report must include a
determination by the warden of the youthful offender system whether the
offender is acceptable for sentencing to the youthful offender system. When
making a determination, the warden shall consider the nature and circumstances
of the crime; the age, circumstances, and criminal history of the offender; the
available bed space in the youthful offender system; and any other appropriate
considerations.

SECTION 7. Effective date. This act takes effect upon passage; except
that sections 4, 5, and 6 of this act take effect only if Senate Bill 21-059

38-38-306. Rights of other lienors to redeem - definition. (2) A mechanic's lien claimant or any other person claiming the right to a statutory lien on real property shall have the right to redeem as a lienor despite the fact that the claim has not been reduced to judgment, if the lien or lien claim has been recorded as required or permitted by statute and the holder thereof has complied with the other conditions required of a lienor by this article. If another lienor redeems after such lien claimant, that portion of the redemption amount attributable to the claim of such lien claimant, as evidenced by such claimant's recorded lien, shall be held in escrow by the officer until a final judgment has been entered in favor of such claimant confirming the claimant's right to a lien and all periods for appeal have expired, whereupon there shall be paid to such claimant from the escrow the amount of the lien claim as established by the judgment, with any interest earned thereon, and the balance, if any, shall be refunded to the owner of the property as of the date of the sale, BORROWER, so long as the last redeeming lienor has otherwise been satisfied. If the claimant releases the lien or fails to establish a right to the lien, the entire escrow shall be paid to the owner of the property as of the date of the sale, BORROWER, so long as the last redeeming lienor has otherwise been satisfied. "SECTION 1. In Colorado Revised Statutes, add article 64 to title 27 as follows:

ARTICLE 64
988 Crisis Hotline Enterprise

27-64-101. Legislative declaration. (1) THE GENERAL ASSEMBLY FINDS AND DECLARES THAT:
(a) ON JULY 16, 2020, THE FEDERAL COMMUNICATIONS COMMISSION ADOPTED RULES, AND ON OCTOBER 17, 2020, CONGRESS PASSED THE "NATIONAL SUICIDE HOTLINE DESIGNATION ACT OF 2020", DESIGNATING 988 AS THE THREE-DIGIT NUMBER FOR THE NATIONAL SUICIDE PREVENTION LIFELINE TO AID RAPID ACCESS TO SUICIDE PREVENTION AND MENTAL HEALTH SUPPORT
(b) It is imperative for Colorado to implement 988 as the three-digit number for crisis response services in Colorado in order to comply with federal regulations; improve quality and access to behavioral health crisis services, especially for underserved populations and in rural areas of the state; and reduce stigma surrounding suicide, mental health, and substance use conditions;

(c) The 988 crisis hotline enterprise provides valuable benefits and services to telephone service users when the enterprise funds the 988 crisis hotline and provides crisis outreach, stabilization, and acute care to individuals calling the 988 crisis hotline from any jurisdiction in Colorado twenty-four hours a day, seven days a week;

(d) By providing the benefits and services specified in subsection (1)(c) of this section, the 988 crisis hotline enterprise engages in an activity conducted in the pursuit of a benefit, gain, or livelihood, and therefore operates as a business;

(e) Consistent with the determination of the Colorado supreme court in Nicholl v. E-470 Public Highway Authority, 896 P.2d 859 (Colo. 1995), that the power to impose taxes is inconsistent with enterprise status under section 20 of article X of the state constitution, it is the conclusion of the general assembly that the charges imposed by the enterprise is a fee, not a tax, because the charges are imposed for the specific purpose of allowing the enterprise to defray the costs of providing the benefits and services specified in subsection (1)(c) of this section to telephone service users and the charges are imposed at rates that are reasonably calculated based on the cost of the services received by telephone service users;

(f) so long as the 988 crisis hotline enterprise qualifies as an enterprise for purposes of section 20 of article X of the state constitution, the revenue from the charges imposed by the enterprise are not state fiscal year spending, as defined in section 24-77-102(17), or state revenues, as defined in section 24-77-103.6(6)(c), and do not count against either the state fiscal year spending limit imposed by section 20 article X of the state constitution or the excess state revenues cap, as defined in section 24-77-103.6(6)(b)(I); and

(g) no other enterprise created simultaneously or within the preceding five years serves primarily the same purpose as the 988 crisis hotline enterprise and the 988 crisis hotline enterprise will generate revenue from charges of less than one hundred million dollars total in its first five fiscal years. Accordingly, the creation of the 988 crisis hotline enterprise does not require voter approval pursuant to section 24-77-108.
