

An Act

HOUSE BILL 22-1159

BY REPRESENTATIVE(S) Cutter, Amabile, Bacon, Bernett, Bird, Boesenecker, Caraveo, Duran, Exum, Froelich, Hooton, Kennedy, Kipp, Lindsay, Lontine, McCluskie, McCormick, McLachlan, Ricks, Sirota, Titone, Valdez A., Weissman, Woodrow;
also SENATOR(S) Priola and Winter, Jaquez Lewis, Lee, Moreno, Story, Fenberg.

CONCERNING WASTE DIVERSION, AND, IN CONNECTION THEREWITH, CREATING THE CIRCULAR ECONOMY DEVELOPMENT CENTER IN THE DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT, ESTABLISHING THE COSTS OF OPERATING THE CENTER AS A PERMISSIBLE USE OF MONEY FROM THE FRONT RANGE WASTE DIVERSION CASH FUND AND THE RECYCLING RESOURCES ECONOMIC OPPORTUNITY FUND, AND EXTENDING AND REMOVING CERTAIN REPEAL DATES ASSOCIATED WITH EXISTING STATUTORY WASTE DIVERSION EFFORTS.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds that:

(a) The recycling, remanufacturing, and reuse industry affects

Capital letters or bold & italic numbers indicate new material added to existing law; dashes through words or numbers indicate deletions from existing law and such material is not part of the act.

86,000 jobs in Colorado, which is 2.7% of the state's overall employment;

(b) In 2020, recycling in Colorado reduced greenhouse gas emissions by more than 1,900,000 metric tons of carbon dioxide equivalent, which is equal to removing more than 400,000 cars from our roads annually. Recycling also saved more than 13,590,000 BTUs of energy, which is equal to conserving the annual energy use of more than 148,000 Colorado households.

(c) The recycling, remanufacturing, and reuse industry accounts for 3.1% of the state's gross state product;

(d) Recovering and recycling materials provides bottom-line benefits to Colorado in terms of people, the planet, and profits; and

(e) Despite such benefits, the state's waste diversion rate has stagnated at around 15%, which is well below the 2021 state goal of achieving a 28% waste diversion rate.

(2) The general assembly also finds that:

(a) There is no singular solution to increasing diversion;

(b) For Colorado to reach its goals, actions must be taken to improve both the supply of materials collected and the demand for those recovered materials; and

(c) By growing existing regional markets or creating new end markets for recycled commodities and compost, Colorado has the potential to shift the demand curve.

(3) The general assembly therefore declares that a circular economy development center focused on growing existing markets and creating new end markets for recycled commodities and compost in Colorado can increase demand for recycled materials, moving Colorado closer to its waste diversion and sustainability goals.
