 24 **"SECTION 1. Legislative declaration.** (1) The general
 25 assembly hereby finds and declares that:

26 (a) The Taxpayer's Bill of Rights (TABOR), codified at Section
 27 20 of Article X of the Colorado Constitution, was adopted by voter
 28 initiative in 1992. TABOR codifies various rules that place the taxing
 29 power directly in the hands of the people, limiting the power of the state
 30 and its political subdivisions to raise revenue.

31 (b) TABOR requires the governor, the general assembly, and local
 32 governments to be responsible stewards of taxpayer dollars by prioritizing
 33 funding for core government functions;

34 (c) Even with TABOR in place, total state appropriations per
 35 Coloradan, adjusted for inflation, have increased by 57% over the last 20
 36 years, from \$3,304 to \$5,196, allowing the state to meet the demands
 37 stemming from population growth and an evolving economic landscape,
 38 while continuing to prioritize taxpayers over ineffectual government
 39 growth;

40 (d) Colorado voters have repeatedly rejected numerous efforts to
 41 repeal TABOR since its enactment. As recently as November 2020,
 42 voters rejected efforts to significantly overhaul or repeal TABOR; and

43 (e) Given the historic budget surpluses the state is experiencing,
 44 the general assembly finds it necessary to implement TABOR refunds as
 45 soon as possible in order to support working families across the state by
 46 returning tax dollars to them."

8
9 Pursuant to House Rule 24, Representative Marshall read a letter of
10 protest and was given consent to have written reasons printed in the
11 journal by **viva voce** vote.

12
13 Under House Rule 24(a), I protest the process used to pass Senate Bill
14 23-259 (Extension of Credit for Limited Gaming) on May 6, 2023. The
15 final passage of this bill by a 33-32 vote occurred after a motion for
16 reconsideration passed after the bill failed on its Third Reading vote.

17
18 The motion for reconsideration passed on a vote of 33-32. House Rule
19 35(b) states:

20 A motion to reconsider shall require the affirmative vote of two-thirds of
21 the members elected to be adopted, and if such motion be defeated, no
22 further motion to reconsider shall be in order; but during the last two days
23 of a session, such a motion shall require only a majority vote of those
24 elected to the House, and reconsideration may be had concerning any bill
25 acted on during the previous two days.

26
27 This motion failed under Rule 35(b) given the known and accepted end
28 date of the session is May 8, 2023. Continued work for the legislative
29 session had been known, and scheduled, for both May 7 and May 8, 2023.
30 However, by custom and practice, but by no written rule, the Speaker
31 proclaimed that the House was in its final three days of session on
32 Monday, May 1, 2023. This creates a legal fiction to invoke different
33 rules.

34
35 This custom and practice makes it impossible for legislators to conform
36 their expectations to law. The reconsideration request came four days
37 after the announcement that the House was in its final three days of the
38 session. And more than two days from the known and accepted final date
39 of the session. Does that mean that the three day announcement custom
40 places the House into a rolling three day end of session so that the second
41 day of the end of session is also placed on a rolling basis? So was May 6,
42 2023 the first day of the three day end of session, where the motion would
43 have failed, or the second day of the three day end of session (although
44 knowingly and factually being three days from the end of session), and
45 passed?

46
47 Under the promulgated written rules of the House, this motion for
48 reconsideration failed. It did not receive the necessary two thirds majority
49 to reconsider. And the unwritten custom and practice that a declaration
50 that the session was within three days of completion could not conform
51 this motion for reconsideration to either the temporal considerations of
52 this unwritten custom, the actual known and accepted facts for the end of
53 session, nor the properly promulgated written rule. Rules for the creation
54 of law should be written and clear so that those subject to them can
55 conform their behavior. This process failed those basic requirements.

1 Very Respectfully,
2
3 /signed/
4 Bob Marshall

31 Dear Honorable Members of the Colorado State House of
32 Representatives:
33

34 Today, I vetoed House Bill 23-1147 (HB 23-1147), "Concerning
35 Provisions Relating to the Adequate Training of Motor Vehicle Drivers"
36 at 1:32 pm.
37

38 HB 23-1147 would create the Driver Education Voucher Program
39 Enterprise within the Department of Revenue in order to provide
40 vouchers to eligible individuals to help defray the costs associated with
41 completing driver education training. This voucher would apply to the
42 costs of driver training, including classroom or online training, behind the
43 wheel training, and driver examinations. In order to fund the voucher
44 program, new driver's license fees would be assessed on the issuance or
45 renewal of a driver license, minor driver's license, or instruction permits.
46

47 While I commend the goal of the sponsors and stakeholders, I am deeply
48 concerned about the increase in cost for driver's licenses that the creation
49 of a new enterprise and subsequent fee would impose.
50

51 The establishment of a new enterprise that adds to the cost of a driver's
52 license is not something to be taken lightly. The Department of Revenue
53 estimates that the overall revenue required in order to appropriately cover
54 costs for the average education and tests with the voucher program for all
55 eligible individuals would be nearly \$15.5M, which would require an
56 estimated fee increase of over \$10 on driver licenses. However, the final

1 version of the bill only includes a \$2 fee compared to the estimated \$10
2 fee, which covers less than 15 percent of the average cost of education
3 and testing, and could raise the potential for an immediate fee increase to
4 cover additional costs. Enterprises are not eligible for General Fund
5 resources of more than ten percent of their total, as such, any
6 misalignment with programmatic operations and outyear costs would be
7 covered by additional driver's license fee increases.

8
9 For the above reasons, HB 23-1147 is disapproved and vetoed.

10

11 Sincerely,

12

27

28 Dear Honorable Members of the Colorado State House of
29 Representatives:

30

31 Today I vetoed House Bill 23-1214, "Concerning Establishing Procedures
32 Related to Applying for Commutation of a Criminal Sentence" at 1:32
33 pm.

34

35 House Bill 23-1214 ("HB 23-1214") would create the "executive
36 clemency representative," who is an individual appointed by the
37 Governor who is responsible for administering processes and procedures
38 in the bill for commutation applications. The bill requires certain
39 supporting materials in commutation applications, sets out timelines
40 related to the application process for commutations, and lists factors the
41 Clemency Board and Governor may consider in evaluating commutation
42 applications.

43

44 I deeply appreciate the support that proponents of this bill, like the
45 Second Chance Center, offer to currently incarcerated and recently-
46 released individuals who are seeking successful reentry into society. I
47 also appreciate that a number of individuals at DOC facilities worked on
48 and testified on behalf of this bill, and I applaud those individuals for
49 engaging in our legislative process.

50

51 However, as my office made clear throughout the legislative session to
52 the sponsors and proponents of this bill, our legal analysis of the bill,
53 confirmed by the Attorney General, is that the bill unconstitutionally
54 infringes on the Governor's exclusive authority to grant clemency. Article
55 IV, § 7 of the Colorado Constitution vests exclusive authority with the
56 governor to grant clemency—reprieves, commutations, and pardons. No

1 grant of authority is made to legislate regarding the manner of applying
2 for commutations; yet, this is what the bill seeks to regulate.

3
4 The Colorado Supreme Court has repeatedly held that granting clemency
5 is an exclusive power of the Governor and has held that intrusions into
6 this power are unconstitutional violations of the doctrine of separation of
7 powers. Rules of constitutional construction dictate that courts give
8 relevant terms their plain and common sense meaning. Courts will not
9 add or subtract words that contravene the Constitution's obvious intent,
10 and the express inclusion of one thing in law implies the exclusion of
11 others. While the bill is well-intentioned, the Colorado Constitution
12 clearly sets out that the legislature may not prescribe the manner of
13 applying for commutations.

14
15 Therefore, HB 23-1214 is disapproved and vetoed.

16
17 Sincerely,

18
19 Jared Polis
20 Governor
21 State of Colorado

1 Dear Honorable Members of the Colorado General Assembly:

2

3 I write to express my enthusiasm in signing HB23-1281 into law. The
4 clean hydrogen economy presents an enormous opportunity for Colorado
5 to lead the transition to low- and zero-carbon fuels. This legislation will
6 help to ensure that the use of clean hydrogen in Colorado supports the
7 state in making progress towards the economy-wide greenhouse gas
8 emissions reduction goals established by statute and the aspirational
9 target of 100% renewable electricity by 2040.

10

11 This bill builds off of Colorado's long history of leadership in emerging
12 energy technologies and driving economic growth through energy
13 innovation. We have seen how partnership between our research
14 institutions like our great universities and the National Renewable Energy
15 Laboratory, the private sector, and utilities can drive faster deployment
16 at scale. This bill firmly establishes Colorado's regional leadership in
17 hydrogen research and commercialization and will support our neighbors
18 in Wyoming, Utah, and New Mexico in our shared efforts to develop a
19 clean and sustainable long-term economy for hydrogen in the west.

20

21 These four states have partnered together as part of the Western Inter-
22 States Hydrogen Hub, a bipartisan coalition applying for \$1.25B of
23 federal investment in hydrogen projects across our four states. Hydrogen
24 production by utilities in Colorado is a central element of the regional
25 hydrogen hub application. This legislation will be a keystone of
26 Colorado's and the region's competitiveness in this application and
27 beyond. In particular, this legislation provides a clear pathway for
28 Colorado investor-owned utilities to play an important role in scaling
29 hydrogen production and use with appropriate guardrails established by
30 the Public Utilities Commission. With this signing statement, I am
31 affirming my intent to ensure the PUC is able to make timely and
32 informed decisions about utility hydrogen proposals brought forward as
33 part of federal funding opportunities, and I direct the Department of
34 Public Health and Environment and Colorado Energy Office to assist the
35 PUC in these efforts. I also direct the Department of Regulatory Agencies
36 to prioritize hiring and procurement processes to allow the PUC to act
37 quickly so that it is prepared for the evaluation and approval process for
38 a hydrogen hub proposal submitted by a utility in 2024. I encourage the
39 PUC to focus its initial efforts on answering the core questions that will
40 be needed to review a utility application that is part of the federal
41 hydrogen hub application.

42

43 However, beyond the initial development of a regional hydrogen hub, the
44 hydrogen economy in Colorado must also be open to other entrants. My
45 administration will also continue to support access to zero carbon
46 electricity that can be used by third party, non-utility hydrogen users and
47 producers. In addition, as regulated utilities bring additional hydrogen
48 projects forward, we support broad, competitive procurement in order to
49 minimize costs and bring benefits to ratepayers and to end users of
50 hydrogen.

51

52 It is important that clean hydrogen production uses clean electricity, from
53 renewables or other zero carbon generation, in order to contribute towards
54 the pollution reduction goals of our state. That is why HB 1281 sets
55 rigorous standards for tracking the electricity used in hydrogen
56 production, including requirements that the PUC must adopt accounting

1 standards ensuring that by 2028 hydrogen production by investor owned
2 utilities, or receiving state tax credits, is powered using newly constructed
3 or curtailed renewable generation, and that the renewable electricity is
4 matched to the hydrogen production on an hourly basis. Because
5 Colorado is blessed with ample wind and solar resources, we believe
6 there will be sufficient renewable electricity available to power our
7 hydrogen industry and even export hydrogen. However, given the nascent
8 state of the clean hydrogen industry, some stakeholders have expressed
9 legitimate concerns about whether imposing such standards will allow
10 economically viable hydrogen production as early as 2028. While these
11 requirements do not apply to private sector development of hydrogen in
12 Colorado nor utilities other than investor-owned utilities that are
13 regulated by the PUC, it is important to ensure that these requirements are
14 achievable. Colorado continues to support our comments to the US
15 Treasury, which suggest that such requirements should not immediately
16 be created nationwide for access to federal production tax credits, but
17 should be phased in over time as the economics becomes more favorable.

18
19 I am requesting that the Public Utilities Commission study temporal
20 matching requirements related to clean hydrogen in the investigatory
21 proceeding mandated by HB 1281, including the emissions impacts and
22 economic viability of hourly and annual matching. If the Commission
23 determines in the investigatory proceeding that it is not economically
24 viable to meet hourly matching requirements by 2028, I request that, prior
25 to opening a rulemaking docket relating to clean hydrogen, they make
26 recommendations to the General Assembly with respect to the appropriate
27 date of implementation and any additional findings about matching
28 requirements.

25

26 Dear Honorable Members of the Colorado General Assembly:
27

28 Today I vetoed House Bill 23-1146 (Employees May Accept Cash Tips)
29 at 5:00 pm.
30

31 HB23-1146 prohibits most employers from taking adverse action against
32 an employee who accepts a cash gratuity offered by a patron of the
33 business.
34

35 At a time when the cultural norms around tipping are shifting, I welcome
36 a renewed conversation about our laws and regulations. However, I have
37 a number of concerns with this legislation. Above all, this is not an
38 appropriate area for state regulation. Some employers use innovative
39 business models or choose for other business reasons to disallow tipping
40 of their employees to reduce corruption, encourage equal treatment of
41 patrons, or foster a more professional environment. Many such businesses
42 share the concern that tipping can lead to unequal treatment of patrons
43 and employees and instead choose to prohibit tipping while paying a
44 higher base wage. This is a legitimate business choice for an employer
45 and a term of employment willingly entered into by an employee and
46 should not be dictated by the State.
47

48 Additionally, the large number of fairly specific exceptions in this bill
49 indicates that there may be unintended consequences from this policy.
50 The bill carves out gaming employees, employees in CDPHE-regulated
51 health-care facilities and Programs for All Inclusive Care for the Elderly
52 (PACE) programs, employees providing housing and services to the
53 elderly, and employees licensed, certified, or registered pursuant to Title
54 12 (Professions and Occupations). I am concerned about the arbitrary and

1 potentially incomplete nature of this list. Clearly the potential danger of
2 allowing tipping in some settings is recognized by the authors, and it
3 follows that there are potential similar problems in other areas as well.

4
5 The practice of tipping is not without merit, and remains the norm in
6 many sectors. At its best, tipping can encourage service excellence and
7 provide additional income for workers. At its worst, tipping can lead to
8 preferential treatment for some patrons, less income for unlucky workers,
9 or even unscrupulous behavior. The balance of whether to allow tipping
10 is best left to the private sector and the free market of employers and
11 employees.

12
13 Colorado has in place strong laws to prevent wage theft. My
14 administration is committed to enforcing those laws and to ensuring that
15 Coloradans are paid what they are owed, including tips if applicable.
16 However, a one-size-fits-all policy on how employers must handle
17 gratuities across industries and across the state does not make sense for
18 Colorado.

19
20 For the above reasons, HB 23-1146 is disapproved and vetoed.

25

26 Dear Honorable Members of the Colorado State House of
27 Representatives:

28

29 Today I am signing HB23-1311 "Concerning the Creation of an Identical
30 Refund Payment of Excess State revenues from all Sources as a
31 Mechanism to Refund a Portion of the Excess State Revenues for the
32 2022-23 State Fiscal Year Only." This bill specifies that the bulk of FY23
33 TABOR refunds are to be distributed to taxpayers as equal-dollar flat
34 amounts if certain circumstances are met.

35

36 Last year, in light of historic levels of inflation, SB23-233 created the
37 Colorado Cashback program and employed a similar concept to HB23-
38 1311 as a way to distribute refunds a half year early. This was intended
39 as a stopgap measure for one year only.

40

41 Before Proposition 121, which I supported, was passed by voters in
42 November 2022, there were three TABOR refund mechanisms in use.
43 The first roughly \$160M was used to reimburse local governments for our
44 Homestead Property Tax Exemption, which provides crucial property tax
45 relief to our seniors and veterans with a disability. Then, a portion was
46 used to temporarily reduce our state income tax rate, which has been a
47 priority for me since I became Governor. The remainder was refunded as
48 a sales tax refund, with different refund amounts depending on each
49 taxpayer's income bracket. When Prop 121 passed, it reduced our state
50 income tax rate from 4.55% to 4.40%, but it unfortunately thereby made
51 the mechanism that allowed for additional temporary income tax cuts
52 obsolete.

53

54

1 I am comfortable signing this bill to continue these refunds on a one-time
2 basis under certain circumstances. I do believe, however, that any long-
3 term discussion on changing the way we distribute TABOR refunds must
4 be paired with reducing the income tax and at the very least bringing back
5 the temporary rate reduction mechanism, which would reduce the income
6 tax rate from 4.40% to 4.27% on a temporary basis and without impacting
7 funding for our schools and other state services when TABOR surpluses
8 are sufficient. As long as this occurs, I would be comfortable permanently
9 eliminating or modifying the six-tier sales tax refund mechanism and
10 instead distributing a portion of TABOR refunds as flat checks or other
11 progressive mechanisms such as the Earned Income Tax Credit.

12
13 I appreciate the work of the General Assembly this year on this subject
14 and look forward to continuing to work with the General Assembly to
15 find efficient ways to return Colorado taxpayers their hard-earned money.

10 Dear Honorable Members of the Colorado State House of
11 Representatives,

12

13 Today I signed into law House Bill 23-1309, "Concerning the
14 Restructuring of the Performance-Based Incentive For Film Production
15 in Colorado" ("HB 23-1309").

16

17 House Bill 23-1309 would restructure Colorado's existing film incentive
18 rebate program into a tax credit for Tax Year 2024 only, and grant the
19 program a \$5 million tax credit allocation. The credit's availability would
20 be conditional on having at least a \$50 million FY24 TABOR surplus
21 (after accounting for the Homestead Property Tax Exemption and a
22 property tax reimbursement to local governments if Proposition HH
23 passes this November), and the bill would require a study regarding the
24 effectiveness of the credit.

25

26 This bill represents a substantial, one-time increase to the funds available
27 for Colorado's film incentive program housed within the Colorado Office
28 of Film, Television and Media (COFTM) in the Office of Economic
29 Development and International Trade (OEDIT). Colorado is an
30 outstanding site for film production, and the additional incentives,
31 coupled with Colorado's natural endowments, will spur additional film
32 production here that positively feature Colorado and create new Colorado
33 jobs in the creative sector. Structuring the program as a tax credit, instead
34 of competing for General Fund dollars, is also a new development.

35

36 I am directing my staff and OEDIT to work with sponsors and
37 stakeholders during the interim to draft legislation to run early next
38 session that fix issues in this bill and allow it to work, and I appreciate
39 that the bill sponsors are willing to work on this fix. We must address
40 budgetary and legal concerns with the bill. In particular, the bill makes
41 inconsistent changes to statute that will cause confusion about COFTM's
42 authority to administer a rebate or credit program after Tax Year 2024
43 and the bill arguably removes the existing rebate program entirely from
44 OEDIT's administration, while the funding mechanism was not amended.
45 A simple legislative fix should allow the rebates to continue for the
46 current fiscal year, and after Tax Year 2024. I also encourage sponsors to
47 work with the Department of Revenue to ensure that the Department has
48 sufficient time to implement this and future measures. I thank the
49 sponsors for their work to advance filmmaking and create jobs in
50 Colorado.

10 Dear Honorable Members of the Colorado State House of
11 Representatives,

12

13 Today, I signed House Bill 23-1306, "Concerning the Use of Social
14 Media Administered by an Elected Official that is Not Supported by
15 Government Resources."

16

17 House Bill 23-1306 ("HB 23-1306") defines the difference between a
18 private and an official social media account, and allows a Colorado state
19 or local elected official to restrict or bar an individual permanently or
20 temporarily from using the elected official's private social media account
21 for any reason, including bullying, harassment, or intimidation, in the
22 elected official's sole discretion. The bill establishes that "private social
23 media" is social media that is not supported by state or local government
24 resources and is not required by any state or local law, ordinance, or
25 regulation to be created or maintained by the elected official. Under the
26 bill, private social media administered by an elected official or their
27 designee (such as their political campaign under campaign finance laws)
28 is a private account and does not create a public forum. Therefore, the
29 elected official or designee has discretion to restrict or remove a user on
30 the official's private social media for any reason.

31

32 Having conducted hundreds of town halls in my official capacity as a
33 member of Congress, several on the campaign side, as well as having
34 attended many events in my personal capacity over the years, I
35 understand why it is important to figure out how to apply free speech
36 protections in the physical world to the virtual world. Clearly, an elected
37 official doesn't surrender their private right of free speech upon taking
38 elected office, and may express personal opinions about a variety of
39 matters or simply share pictures of a pet, favorite recipe, or funny meme.
40 In their personal capacity, just as if they were not in elected office, they
41 should be able to ban toxic commentators if they choose to. Any official
42 forum, however, has a higher standard to be open to the public, although
43 may still be monitored for fighting words, threats, and other unprotected
44 speech which is allowed to be removed. The question before us is what
45 is private or campaign related, and what is a public forum, and this bill
46 posits a reasonable division.

47

48 This area of law, related to legitimate public discourse on social media
49 and the protections provided by the First Amendment, is unsettled and
50 currently pending before the United States Supreme Court. In April 2023,
51 the Court agreed to review two cases specific to this issue, one from the
52 Ninth Circuit, *Garnier v. O'Connor-Ratcliff*, 41 F.4th 1158 (9th Cir.
53 2022), and the other from the Sixth Circuit, *Lindke v. Freed*, 37 F.4th
54 1199 (6th Cir. 2022). I appreciate the goals of the sponsors of this bill in
55 providing clarity to public officials in this area of law, and the bipartisan
56 work that went into this bill. However, I also want to make sure that

1 elected officials don't view the presence of this statute as a safe harbor for
2 the activity allowed under this law due to ongoing litigation. I encourage
3 the General Assembly to monitor the Court's opinion in these cases, and
4 if needed, to pass future legislation for my signature that amends this bill
5 to conform with the Court's decision.

1 Dear Honorable Members of the Colorado State House of
2 Representatives:

3
4 Today I vetoed House Bill 23-1258, “Concerning Creating a Task Force
5 to Study the Costs Associated with Drug Crimes” at 5:29 pm.

6
7 House Bill 23-1258 (“HB 23-1258”) would create a task force to “study
8 state and local government costs associated with enforcing drug laws,
9 investigating and punishing drug crimes, and rehabilitating those
10 convicted of drug crimes” and make recommendations to the General
11 Assembly relating to how cost savings from reducing drug crimes or
12 sentences could be used to reduce substance use and dependence in the
13 state. The bill requires the Colorado School of Public Health to “conduct
14 an actuarial cost study evaluating the costs associated with enforcement
15 of drug laws and incarceration in the state” and provide the study to the
16 task force by February 15, 2024.

17
18 I appreciate the bill sponsors’ efforts to bring forward policy with the
19 well-intentioned goal of reducing substance use and dependence in
20 Colorado. I support this goal and believe that reducing substance use and
21 dependence, as well as crimes related to substance use, is one of the key
22 components in making Colorado one of the ten safest states. However, as
23 stakeholders pointed out during the legislative session during committee
24 hearings, it is critical that any study or task force evaluating costs of
25 enforcing drug crimes also evaluate the costs, risks, and ramifications that
26 may accompany a reduction in enforcement of drug crimes and drug
27 crime sentencing.

28
29 During the legislative process, amendments were adopted, then
30 subsequently removed, that would have exempted some of the most
31 serious drug crimes from being included in the study, required at least a
32 two-thirds majority vote before a recommendation could be adopted by
33 the task force, required the study to evaluate how rehabilitation during
34 supervision and incarceration from drug crimes could be improved,
35 included the Colorado Department of Public Safety in the study, and
36 required that the benefits of enforcing drug crimes be considered when
37 conducting the evaluation. These amendments would have led to a more
38 balanced approach to the study that would have alleviated concerns that
39 the bill is designed to produce recommendations solely on reducing drug
40 crime enforcement, without evaluating any savings or benefits associated
41 with drug crime enforcement. The bill as passed would also not include
42 the potential societal costs and risks associated with a reduction of drug
43 crime enforcement and sentencing.

44
45 Finally, I would be remiss if I did not mention that the type of study
46 contemplated by HB23-1258 would have been appropriately scoped and
47 conducted by the soon-to-sunset Commission on Criminal and Juvenile
48 Justice (CCJJ). The work that this legislation aims to achieve underscores
49 the importance of the state having a multidisciplinary commission with
50 broad representation from across the spectrum such as the CCJJ to take
51 on important subjects relating to criminal justice. Shortly I will be taking
52 Executive action to continue some of the work of the CCJJ in a new
53 forum, and will consider presenting this request to the newly constituted
54 body. While I appreciate the well-intentioned effort to reduce substance
55 use and dependence, for the reasons above, I cannot support the
56 legislation as passed.

1 Therefore, HB 23-1258 is disapproved and vetoed.

2

3 Sincerely,

4

17

18 Dear Honorable Members of the Colorado State House of
19 Representatives:

20

21 Today I am signing HB23-1100 "Concerning Restrictions on
22 Governmental Participation in Civil Immigration Detention."

23

24 The federal government needs to secure our borders and fix our broken
25 immigration system. States can only vent frustration and try to push the
26 federal government to secure our borders and pass comprehensive
27 immigration reform, and by signing this bill I am doing just that. I
28 continue my long-standing opposition to any state law that prevents local
29 law enforcement from cooperating with federal immigration officials,
30 sometimes referred to as "sanctuary cities." Immigration Customs
31 Enforcement (ICE) is a law enforcement agency that has a legitimate and
32 important role in our state and in our nation, and I will ensure that
33 Colorado is not, nor should it be, a sanctuary state. All local governments
34 should be free to determine how and when they work with federal
35 immigration officials when it comes to immigration enforcement, and the
36 state should never get in the way of efforts to enforce state or federal law.

37

38 Notably, this bill does not change in any way ICE's authority or ability
39 to detain individuals, nor the ability of local governments to cooperate
40 with ICE on enforcement actions. These rules are set at the federal level
41 and ICE will still have the ability to contract with private entities to
42 enforce immigration laws and to detain individuals across our state in
43 accordance with the law. So too, this bill does not prevent ICE from
44 opening up or operating their own detention facilities within our state. It
45 also does not prohibit local governments and law enforcement from
46 cooperating, investigating and enforcing criminal laws or civil laws, nor
47 does it shield anyone from criminal prosecution or civil liability by local,
48 state or federal governments.

49

50 This bill prevents state and local governmental entities from entering into
51 agreements for the detention of people in an immigration detention
52 facility owned or managed by a private entity. The bill also prohibits state
53 and local governments from entering into or renewing agreements to
54 detain people for only federal civil immigration purposes.

55

56

1 Local governments can still participate in coordinated law enforcement
2 actions with federal law enforcement and, as the Colorado district court
3 recently held, local governments can still collaborate with the federal
4 government to enforce federal immigration law. The bill also does not
5 prevent ICE from enforcing federal immigration law nor prevent ICE
6 from detaining people who violate federal law in ICE detention facilities.
7 Instead, it merely prohibits local governments and the State from
8 contracting directly with ICE for civil immigration enforcement – while
9 still allowing ICE to contract directly with a private entity for detention
10 in the state or operate their own facilities in our state. Additionally,
11 nothing in this bill prevents local governments from providing health,
12 utility, or sanitation services to immigration detention facilities, nor does
13 the bill prevent local governments from providing routine government
14 services, for example building permits to these facilities.
15

16 I do have concerns that this bill will cause financial hardship to the one
17 county that has an active agreement with ICE. To that end, I am
18 committed to working with Teller County and call on the General
19 Assembly to address budget shortfalls that may result from the signing of
20 this law.
21

22 I share the sponsors' goal to treat immigrants and individuals caught in
23 detention proceedings with respect and dignity. Unfortunately, this bill
24 will not and cannot address any of the causes of our broken immigration
25 system, but instead focuses on the consequences of a system that tears
26 families apart and prevents economic growth. I appreciate the interactions
27 I had with the federal government during this process, though frustration
28 with civil detention processes does still exist. Hopefully the signing of
29 this bill will be taken by the federal government as a manifestation of our
30 frustration in Colorado with our broken immigration system and pushes
31 the federal government to take responsibility. I am committed to working
32 with and continuing to call on Congress and the federal government to
33 finally take action on comprehensive immigration reform. State and local
34 governments simply cannot solve our nation's immigration crisis.

52 Dear Honorable Members of the Colorado State House of
53 Representatives:
54

55 Today, I vetoed House Bill 23-1190, "Affordable Housing Right Of First
56 Refusal" at 6:00 pm.

1 House Bill 23-1190 (HB 23-1190) created a right of first refusal for a
2 local government to match an acceptable offer for the sale of a residential
3 or mixed-use multifamily property with an economically substantially
4 identical offer. The right to the purchase of the property by the local
5 government is subject to the local government's commitment to using the
6 property as long-term affordable housing.

7
8 I appreciate the sponsors' work to provide a tool to preserve naturally
9 occurring, long term affordable housing in our State. Of course we should
10 recognize that the type of purchase by a public entity contemplated in the
11 bill can already occur now on the open market. While I support
12 innovative approaches to our housing crisis, this tool in its current form
13 should not be mandatory and could have larger and unanticipated impacts
14 on the housing market and future real estate transactions in Colorado that
15 increase housing costs for Coloradans.

16
17 I commend the sponsors for their work to alleviate concerns throughout
18 the legislative process. I am deeply disappointed that some stakeholders
19 chose not to engage with the General Assembly and instead only brought
20 their concerns to me after the end of the legislative session. However, I
21 take my responsibility to review all bills incredibly seriously during my
22 thirty day period to review bills and cannot ignore concerns that are
23 brought to me that raise serious policy and technical issues, as there were
24 on this bill. We would expect that stakeholders raise their concerns and
25 engage in the legislative process moving forward.

26
27 While I understand adopted amendments provided security around the
28 transfer of a title, the final version could create issues for Colorado banks
29 and lenders in securing full title protection. It is extremely difficult to
30 execute a loan without adequate title insurance, and I am deeply
31 concerned that many lenders will account for this additional risk on multi-
32 family properties with higher interest rates for borrowers and increased
33 costs. That translates to higher costs for renters. Additionally, with this
34 liability, it is probable that underwriters could add certain exceptions to
35 the policy should they decide to insure this type of transaction, meaning
36 a policy will not be issued unless the conditions are resolved prior to
37 closing. This could cause significant time delays and confusion.

38
39 In addition to the concerns around liability and insurance, the legislation
40 also contains ambiguous language that would be difficult to interpret and
41 implement. The bill allows for local governments to purchase properties
42 using *economically substantially identical* offers to what would be
43 available through the private market; however, that term is not defined in
44 the legislation. The bill does spell out what cannot be factored into
45 making that determination (e.g. no bias toward type of financing method
46 and time period for closing), however, the current ambiguity leaves
47 covered sellers exposed to challenge and could chill real estate
48 transactions for these covered properties. In addition to the economically
49 substantial language, there is a lack of clarity of when a notice of sale is
50 triggered. This uncertainty and ambiguity of the language could cause
51 confusion between the local government and the seller, which could
52 discourage investment at a time when the market cannot bear much risk.

53
54

1 I support local governments' ability to buy these properties on the open
2 market and preserve low-cost housing opportunities, but am not
3 supportive of a required right of refusal that adds costs and time to
4 transactions. Additional incentives or policy levers such as a notice
5 requirement or financing mechanisms for cities could be used to further
6 encourage local governments, and I would be supportive of this kind of
7 approach.

8
9 However, I remain wary of placing more pressure on the market that
10 could raise housing costs with this approach, given the uncertainty and
11 risk associated with the lending and insurance and its impact on real
12 estate transactions outlined in this letter. I remain committed to working
13 with the General Assembly, stakeholders, local governments, and other
14 partners on innovative housing solutions that will not lead to increased
15 risk or market manipulation, but rather increased collaboration, less
16 regulation, and more opportunities to create and preserve affordable
17 housing in our State.

18
19 For the above reasons, HB 23-1190 is disapproved and vetoed.

36
37 Dear Honorable Members of the Colorado State House of
38 Representatives:

39
40 Today I signed HB 23-1130 "Drug Coverage For Serious Mental Illness"
41 into law. This legislation defines Serious Mental Illness (SMI) in the
42 commercial insurance market and in Medicaid. Additionally, it requires
43 the State Medical Services Board to review any new drugs approved by
44 the FDA for SMI for coverage by Medicaid within 90 days of approval.
45 Then, the bill requires that health insurance carriers or pharmacy benefit
46 managers (PBMs) that use step therapy for utilization management of
47 prescription drug coverage related to medications that treat SMI only
48 require one "step" before being required to cover the patient's provider's
49 preferred drug for treatment.

50
51 Although step therapy can present a barrier to necessary care when used
52 inappropriately, I have concerns about approaching these policies one by
53 one for individual conditions, without analysis on impacts to care and
54 cost.

55
56

1 In 2022 I signed HB 22-1370 into law, which created parameters for
2 patients and their providers to request exceptions to step therapy
3 requirements in limited cases. This approach balances the need for
4 carriers to manage their costs appropriately with the need for patients to
5 access required medications. HB 23-1130 however, would allow any
6 patient with SMI to get their provider's preferred prescription covered, if
7 it is included on the carrier's formulary, after trying and failing on a
8 single drug for any reason. I am wary of the approach HB 23-1130 takes
9 due to its potential unintended impacts on premiums as well as its
10 potential to result in limited formulary access to drugs used to treat SMI.
11 It is important that we approach implementation of this legislation with
12 caution and monitor it on an ongoing basis to ensure consumers are
13 protected from these potential negative impacts.

14
15 I thank the sponsors for their work on HB 23-1130 to save people money
16 on and improve access to health care. I look forward to monitoring the
17 impact of this legislation on Colorado consumers.

37
38 Today, I vetoed House Bill 23-1259, "Concerning Provisions in the Open
39 Meetings Law for an Executive Session of a Local Public Body" at 5:30
40 pm.

41
42 House Bill 23-1259 ("HB 23-1259") modifies how open meetings law
43 violations related to executive session are handled with respect to *pro se*
44 (unrepresented) plaintiffs and the awarding of costs and reasonable
45 attorney fees. Under current law, when a court finds a violation of Open
46 Meetings Law, the citizen prevailing in the case is entitled to costs and
47 reasonable attorney fees. As passed, the bill creates a narrow exception
48 in Open Meetings Law so that an unrepresented plaintiff who prevails in
49 a lawsuit against a local public body - which include municipalities,
50 counties, school districts, and special districts - for a violation related to
51 an executive session is no longer entitled to an award of costs or attorney
52 fees. Likewise, costs or attorney fees cannot be assessed against the
53 unrepresented plaintiff unless the court finds the action brought was
54 frivolous, vexatious, or groundless.

1 While I appreciate the bipartisan nature of this work and the thoughtful
2 amendments towards the end of the legislative process, we should strive
3 for increased transparency and accountability, not less transparency and
4 accountability, throughout our democratic institutions.
5

6 I am concerned that the provisions of HB 23-1259 may act as an
7 impediment to legitimate challenges to open meetings and potentially
8 result in increased instances of non-compliance by shifting the costs of
9 the legal burden to those seeking the disclosures. Colorado Open
10 Meetings Law is clear and local public bodies have a responsibility to
11 comply and meet certain requirements that ensure all Coloradans have
12 access throughout the public process. It has become clear that the intent
13 of the proposed legislation is to address open meetings issues around
14 executive sessions arising in the school districts across Colorado. There
15 are few things more important to our Administration than supporting
16 students, educators, and our school districts.
17

18 This importance, and the resulting impact that education has on the next
19 generation of Coloradans, demands a special attention to openness
20 throughout the entire process. I believe that there are paths to drive
21 towards increased open meetings compliance, but modifying Colorado
22 state law in a way that prevents unrepresented public citizens from
23 recouping court-related costs in a legitimate Open Meetings Law case is
24 the not path I believe Colorado should walk down.
25

26 For the above reasons, HB 23-1259 is disapproved and vetoed.

44 Dear Honorable Members of the Colorado State House of
45 Representatives:
46

47 Today I signed into law HB23-1294 “Concerning Measures to Protect
48 Communities from Pollution, and in Connection Therewith, Making an
49 Appropriation.”
50

51 Improving Colorado’s air quality is a top priority for my administration,
52 and we have made great strides in recent years. These include accelerated
53 efforts to deploy clean energy, with all Colorado utilities on a path to
54 achieving 80% or more renewable energy by 2030, significantly cutting
55 down on greenhouse gas and local air pollution from fossil fuel plants
56 including closing all of Colorado’s coal plants by 2031. We are working

1 to slash pollution with industrial sector pollution rules, incentives for
2 clean manufacturing, and new building codes and building performance
3 standards. We have reformed the way Colorado does transportation
4 planning, requiring each of the state's metropolitan planning
5 organizations to achieve quantifiable reductions in greenhouse gas
6 emissions and therefore local air pollution. This year we adopted the
7 Advanced Clean Trucks and Low NOx rules for medium and heavy-duty
8 trucks, and expect later this year to adopt extended and expanded sales
9 standards for zero-emission light-duty vehicles. In the oil and gas sector,
10 we were the first State in history to propose a technology-agnostic
11 rulemaking to drive significant cuts in nitrogen oxide emissions from the
12 upstream oil and gas sector. Colorado leads the nation in reduction of
13 methane emissions from oil and gas, and through reforms brought on by
14 SB19-181 have seen the number of oil and gas permits decline while
15 seeing great improvement in environmental performance of those oil and
16 gas projects approved.

17
18 This legislation adds resources to help ensure timely review of citizen
19 complaints, establishes a timeline for a rulemaking on cumulative impacts
20 from oil and gas, and provides a forum at the General Assembly to study
21 and better understand the complex issues surrounding air quality
22 regulations and opportunities for improvement.

23
24 With this signing statement, I intend to offer some clarity to the intent of
25 elements of the cumulative impacts language in the bill for consideration
26 of the Colorado Energy and Carbon Management Commission (formerly
27 the Colorado Oil and Gas Conservation Commission) as they undertake
28 rulemaking.

29
30 First, the inclusion of the word "addressable impacts" is intended and will
31 be implemented by my administration so as to ensure the Commission,
32 when making determinations where and how to avoid, mitigate, or
33 minimize potential impacts, is acting within their statutorily-defined role
34 in permitting and overseeing direct impacts from oil and gas locations
35 themselves. While some impacts may not be addressable, they can still be
36 analyzed to develop a fuller picture. Collectively, the Commission's on-
37 going work to address cumulative impacts related to oil and gas and the
38 actions my administration has taken to address emissions from other
39 sectors will continue to improve Colorado's air quality.

40
41 Second, while the definition of cumulative impacts provides flexibility to
42 the Commission to address "foreseeable" impacts, it is the intent of the
43 Commission to analyze, as part of "sources that are controlled or owned
44 by the operator" any non-road engines owned by any entity, operator or
45 otherwise, that are contracted for services by the operator and used as a
46 part of the oil and gas location. As these engines are a major contributor
47 to air quality and other impacts of oil and gas, these should not be omitted
48 from the analysis simply because they are contracted with a third party.

49
50 Lastly, while we welcome continued public dialogue to advanced our
51 shared goals to improve air quality, I offer to the Interim Committee the
52 following:

53
54

- 1 1. While oil and gas is a contributor to Colorado’s air quality
2 challenges, I encourage the Committee to focus on all sources
3 of ozone. Policies and practices that regulate oil and gas are
4 rarely the same as those governing industrial emissions, power
5 plants, or the transportation sector. A thorough conversation
6 must recognize all sources of emissions and evaluate,
7 streamline, and improve the regulatory process for each.
8
9 2. I remain concerned that any future changes to the regulatory or
10 rulemaking process will continue to place significant
11 administrative burdens on already under-resourced and under-
12 staffed state agencies including the Energy and Carbon
13 Management Commission and Department of Public Health
14 and the Environment. In conversations with stakeholders there
15 is agreement that Colorado continues to struggle with
16 attracting and retaining talented technical staff at these
17 agencies to successfully implement these laws. I encourage the
18 Interim Committee to investigate these challenges head-on and
19 identify potential solutions that ensure we have a qualified
20 workforce to implement any current and future direction from
21 my administration or the General Assembly.
22

23 I greatly appreciate the rigorous debate and discussion over this bill, and
24 my administration remains available to inform policy conversations on air
25 quality issues into the future.

42

43 Dear Honorable Members of the Colorado State House of
44 Representatives:
45

46 Today I signed House Bill 23-1120 “Eviction Protections For Residential
47 Tenants.” This bill requires a landlord and residential tenant to participate
48 in mandatory mediation prior to an eviction action if the residential tenant
49 receives supplemental security income (SSI), federal social security
50 disability insurance (SSDI), or cash assistance through the Colorado
51 works program. Exceptions to this requirement include non profit
52 organizations that offer mediation prior to filing for a residential eviction,
53 landlords with five or fewer rental units, and in cases where the tenant
54 does not disclose that they receive SSI, SSDI or cash assistance.
55
56

1 I appreciate that the sponsors engaged in good faith with opponents to
2 make amendments to the scope of this bill. I do want to share my
3 concerns more generally and future intentions regarding similar
4 legislation. I have concerns about mandating processes such as mediation
5 and establishing policy related to mediation for a particular population.
6 A holistic approach to improve access to mediation across the board that
7 does not include a mandate is preferable. I also have serious concerns
8 about the piecemeal approach to landlord tenant law over the past several
9 legislative sessions. Like any marketplace, landlords and tenants need
10 consistency to be able to establish norms. Without stability in this space,
11 reforms could lead to the unintended consequences of decreased supply
12 of affordable and attainable housing and increased rent at a time in which
13 Coloradans cannot afford additional costs or uncertainty. Renter rights
14 can quickly become renter wrongs if we do not proceed with a higher
15 degree of rigor and consistency moving forward.

16
17 Therefore I will oppose legislation in the future that is inconsistent with
18 the concerns expressed above or that would otherwise lead to increased
19 rents, higher home prices or instability.

20
21 I share the sponsors' goal to ensure that all people, and particularly the
22 most vulnerable Coloradans, have access to stable, affordable and
23 attainable housing. I look forward to continuing to work with the General
24 Assembly on reforms that will meet this goal.

28 Dear Honorable Members of the Colorado State House of
29 Representatives:
30

31 Today I am signing HB23-1112 “Earned Income and Child Tax Credits.”
32 This bill increases the size of the state Earned Income Tax Credit (EITC)
33 for Tax Year 2024 from 25% to 38% of the taxpayer’s federal EITC
34 credit claim. The bill also restructures the state Child Tax Credit (CTC)
35 so that taxpayers receive flat dollar amounts, rather than a percentage of
36 the federal CTC claim, which results in low-income households receiving
37 higher credit amounts.
38

39 These two credits are very important to me. With HB20-1420 and HB21-
40 1311, we doubled the size of our state EITC. In HB21-1311 we also for
41 the first time created a state CTC. This was a pillar of my tax reform work
42 during my first term. These two credits reduce poverty, improve maternal
43 and infant health, and improve educational outcomes. The EITC also has
44 a well-documented history of increasing work and boosting our labor
45 force.
46

47 I am comfortable signing this bill given the agreement of the sponsors to
48 eliminate the unintended costs in future years early next legislative
49 session. Legislative Council staff estimates that the changes HB23-1112
50 makes to the state CTC result in an ongoing revenue reduction of \$45.6M.
51 I am told by the sponsors the fiscal impacts of the changes to the CTC
52 were unknown and unintentional. We need to have a long-term
53 conversation around how to balance investing in tax credits for low- and
54 middle-income families with other fiscal priorities given our tight budget

1 space in Colorado. Further I am asking the sponsors to work with our
2 office to end the excess \$45.6MM of CTC after next year to account for
3 the uncertain budget environment.

4
5 I appreciate the work of the General Assembly this year on these credits
6 and look forward to engaging with them on a broader conversation
7 around fiscal and budget priorities.

24
25 Dear Honorable Members of the Colorado State House of
26 Representatives:

27
28 Today I signed HB 23-1002, "Epinephrine Auto-injectors" into law. This
29 legislation is a major step to save people money on health care. Reducing
30 out-of-pocket costs of Epinephrine Auto-injectors ("Epi-pens") for
31 Colorado consumers who need this important medication will prevent
32 emergencies and, in dire cases, death, by removing cost as a barrier to
33 access. HB 23-1002 caps copayments for consumers on state-regulated,
34 commercial insurance plans for Epi-pens and creates the Epi-pen
35 Affordability Program for eligible individuals.

36
37 While I applaud the proactive efforts of the General Assembly to reduce
38 out-of-pocket costs for Epi-pens through HB 23-1002 as well as HB 19-
39 1216, "Reduce Insulin Prices", which I signed into law in 2019, these
40 models may have potential impacts to health insurance premiums, as well
41 implementation and enforcement challenges. I encourage the General
42 Assembly to support the groundbreaking efforts of Colorado's
43 Prescription Drug Affordability Review Board (PDAB), which has the
44 authority to sustainably reduce the cost of prescription drugs for
45 Coloradans.

46
47 Both the Insulin and Epi-pen Affordability Programs established in
48 Colorado law require the Colorado Division of Insurance, under the
49 Department of Regulatory Affairs, to prepare the program application
50 forms and post them to their website. However, there is no entity tasked
51 with enforcement of the programs' provisions related to pharmacies and
52 pharmaceutical manufacturers. Furthermore, there are no mechanisms
53 contained in either program that allow for tracking usage of the programs
54 for evaluation. In the interim, I am excited to work with sponsors of both

1 pieces of legislation, stakeholders, and state partners to create sustainable
2 solutions to these implementation and enforcement challenges in order to
3 improve the effectiveness of these programs.

4
5 This legislation will save Coloradans money on health care, but its
6 challenges highlight the need for wholesale, federal reform to reduce the
7 price of prescription drugs for patients. I thank the sponsors for their work
8 on HB 23-1002 and look forward to reducing barriers to care for
9 Coloradans who desperately need this medication.

RESIGNATION

20

21 July 14, 2023

22

23 Robin Jones, Chief Clerk

24 Colorado House of Representatives

25 Denver, Colorado 80203

26

27 Dear Chief Clerk Jones,

28

29 It has been an honor to serve and represent House District 4 in the
30 Colorado General Assembly for the last five years, and it is with sincere
31 gratitude that I submit my resignation effective August 4, 2023.

32

33 I am grateful for the opportunities I had to work on various issues
34 including helping my constituents and people across the state of Colorado
35 in accessing and strengthening basic human rights. In my service at the
36 legislature, I had the privilege to serve as the Assistant Majority Leader
37 in the 2021 and 2022 legislative sessions and the Vice Chair to the
38 Behavioral Health Transformational Task Force in 2021. I have also
39 valued my time with the Colorado Democratic Latino Caucus, which
40 doubled our representation in the Legislature to 14 members. I am
41 hopeful that we will reach parity in the future.

42

43 I am proud to have been a part of the positive changes made during my
44 tenure and know that there is more to be done. I have full faith in my
45 legislative colleagues and the future House District 4 Representative —
46 I hope they will continue to pass policies that prioritize the Coloradans
47 who don't have the loudest voices but are closest to the pain, those who
48 are most impacted and are not privileged to have paid corporate lobbyists
49 at the Capitol. I trust that they will continue to work on policies so that
50 Coloradans can access affordable housing and healthcare, and that people
51 who are housed can keep their housing and those that are unhoused,
52 struggling with substance use or mental health issues are treated with
53 dignity and support. I am asking my colleagues to break down oppressive
54 systems that continue to disproportionately prosecute, incarcerate, and
55 create barriers for adults and children of color to thrive in our state. As I
56 have often done over the past five years, I leave reminding my colleagues
57 that they are there to represent the PEOPLE, not special interests.

1 I thank my colleagues in the Colorado House and the Senate. I thank the
2 many staff, both partisan and non-partisan, from maintenance to drafters
3 to custodial, for your passion and commitment to ensuring the people's
4 house is operational. I thank the people of House District 4 for electing
5 me to serve our community for the last five years. Lastly, I thank my
6 family for their ongoing support and patience while I navigated the halls
7 of the Capitol.

8
9 Although I am leaving the Legislature, I will not be going far. As I
10 assume my role as Denver City Councilperson at-large, I will have the
11 great opportunity to return my focus back to the City and County of
12 Denver, where I have served kids and families for the last two decades.

13
14 I am excited to continue to serve the people of Denver and Colorado.

15
16 Sincerely,
