# Audit of Cybersecurity Resiliency at the Governor's Office of Information Technology – Public Status Report

Members of the Legislative Audit Committee:

Attached is the status report from the Governor's Office of Information Technology (OIT) on the implementation of recommendations contained in the Office of the State Auditor's (OSA) *Audit of Cybersecurity Resiliency at the Governor's Office of Information Technology – Public Report.* At the December 9, 2024, Legislative Audit Committee (Committee) hearing, we will discuss this status report.

We did not perform procedures to substantiate any of the recommendations noted in OIT's public status report, as OIT reported that it had not implemented any of the recommendations it partially agreed to, as listed in the report.

Following the Committee's vote to go into executive session in accordance with Section 24-6-402(3)(a)(IV), C.R.S., we will distribute and discuss the status report for *Audit of Cybersecurity Resiliency* at the Governor's Office of Information Technology – Confidential Report.

The executive session will be held at approximately 11:30 a.m. during the December 9, 2024, Legislative Audit Committee hearing. The confidential material will be collected at the conclusion of the executive session.

Serving People. Serving Colorado.

7/15/2024

Kerri L. Hunter, CPA, CFE State Auditor Colorado Office of the State Auditor 1525 Sherman St., 7<sup>th</sup> Floor Denver, CO 80203

Dear Auditor Hunter:

In response to your request, we have prepared the attached status report on the implementation status of audit recommendations contained in the OIT Cybersecurity Resiliency Audit 2250P-IT. The report provides a brief explanation of the actions taken by the Governor's Office of Information Technology/Office of Information Security to implement each recommendation.

Much of the work to produce supporting artifacts continues and will be available per the prescribed dates.

Per OIT project tracking the percentage of complete recommendations is 23%. The Governor's Office of Information Technology/Office of Information Security continues to make the implementation of these audit recommendations its top priority and will achieve these remediations where appropriate by June 30, 2025. All but a handful of the 12 audit findings (77 recommendations) are in varying states of progress. Many were not capable of providing artifacts to qualify them as partially implemented at the time of this writing. OIT is tracking all of these efforts as projects and the current project progress value is 43%.

If you have any questions about this status report and the Governor's Office of Information Technology/Office of Information Security's efforts to implement the

audit recommendations, please contact Craig Hurter, Sr Director Information Security at 720-751-1266 or craig.hurter@state.co.us.

Sincerely,

DocuSigned by:

David Edinger 47928ED20CB34F0..

David Edinger Governor's Office of Information Technology/Office of Information Security

# Audit Recommendation Status Report

Audit Name:	Audit of Cybersecurity Resiliency – Public Report
