A BILL FOR AN ACT

CONCERNING THE LIMITED USE OF AUTOMATED VEHICLE IDENTIFICATION SYSTEMS DESIGNED TO DETECT DISOBEDIENCE TO A TRAFFIC SIGNAL.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://www.leg.state.co.us/billsummaries.)

Current law allows the use of automated vehicle identification systems designed to detect disobedience to a traffic signal on all traffic signals.

The bill prohibits the use of automated vehicle identification systems designed to detect disobedience to a traffic signal on collector
roads and local streets. The bill allows the use of the systems:

- Within a school zone;
- Within a highway or road construction or repair zone; and
- On arterial roads.

The bill requires that fines assessed through the use of red light cameras be used for traffic safety improvements, traffic enforcement, or related purposes.

---

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:

(a) It is important to limit the expansion of the use of automated vehicle identification systems to detect disobedience to traffic signals;

and

(b) The systems should not be used on collector roads, local streets, and in neighborhoods. A collector road is a road that collects traffic from local streets and distributes the traffic to arterial roads.

(2) It is therefore the intent of the general assembly to limit the use of automated vehicle identification systems to detect disobedience to traffic signals in school zones, construction zones, and arterial roads.

SECTION 2. In Colorado Revised Statutes, 42-4-110.5, add (2) as follows:

42-4-110.5. Automated vehicle identification systems - definition. (2) A municipality may adopt an ordinance authorizing the use of an automated vehicle identification system to detect violations of traffic regulations adopted by the municipality, or the state, a county, a city and county, or a municipality may utilize an automated vehicle identification system to detect traffic violations under state law, subject to the following conditions and limitations:

(h) (I) THE STATE, A COUNTY, A CITY AND COUNTY, OR A
MUNICIPALITY MAY ONLY USE AN AUTOMATED VEHICLE IDENTIFICATION
SYSTEM DESIGNED TO DETECT DISOBEDIENCE TO A TRAFFIC CONTROL
SIGNAL:

(A) WITHIN A SCHOOL ZONE, AS DEFINED IN SECTION 42-4-615;

(B) WITHIN A MAINTENANCE, CONSTRUCTION, OR REPAIR ZONE
DESIGNATED PURSUANT TO SECTION 42-4-614; AND

(C) TO DETECT A TRAFFIC VIOLATION ON AN ARTERIAL ROAD.

(II) FOR THE PURPOSES OF THIS PARAGRAPH (h), "ARTERIAL ROAD"
MEANS A MAJOR ROADWAY INTENDED PRIMARILY TO SERVE THROUGH
TRAFFIC, WHERE ACCESS IS CAREFULLY CONTROLLED.

(III) A GOVERNMENTAL ENTITY THAT ASSESSES ANY FINES
THROUGH THE USE OF AN AUTOMATED VEHICLE IDENTIFICATION SYSTEM
DESIGNED TO DETECT DISOBEDIENCE TO A TRAFFIC SIGNAL MAY USE THE
MONEY ONLY FOR TRAFFIC SAFETY IMPROVEMENTS, TRAFFIC
ENFORCEMENT, AND RELATED PURPOSES.

SECTION 3. Safety clause. The general assembly hereby finds,
determines, and declares that this act is necessary for the immediate
preservation of the public peace, health, and safety.
