6 Community Colleges and Occupational Education State System Community Colleges -- The cash funds appropriations from tuition and academic and academic

7 facility fees are for informational purposes only. Within the parameters of Section 23-5-130.5, C.R.S., higher education governing boards may set the tuition

8 rates for the institutions they govern. Amounts shown are based on the Legislative Council Staff February 2015 higher education enrollment and tuition

9 forecast. Consistent with the provisions of S.B. 14-001 that limit undergraduate resident tuition rate increases to no more than 6.0 percent, resident tuition rates

10 are assumed to increase by no more than 6.0 percent. The assumed rate of increase varies by institution and ranges from 4.5 percent to 6.0 percent for resident

11 students and 0.8 percent to 6.0 percent for nonresident students, based on information available at the time of the forecast.

12

13 20 Department of Higher Education, History Colorado – Appropriations for History Colorado incorporate reductions to align appropriations with available limited

14 gaming revenue, based on current gaming revenue projections. In the event History Colorado is able to compensate for declines in gaming revenue with

15 increased earned revenue or additional gaming receipts, this will represent information not available at the time the appropriation was made and will thus be

16 consistent with supplemental request criteria. It is the intent of the General Assembly that History Colorado work as quickly as possible to align expenditures

17 with revenues so that the institution remains solvent and viable into the future.
