assembly.

The department is directed to continue completing an annual review of the methodology by which counties evaluate and negotiate provider rates and outcomes and submit a report to the joint budget committee. As part of the continuing review, the department shall contract with an independent vendor to:

- ! Perform a salary survey and study related to the delivery of child welfare services. The study must include salary surveys for providers; child protection employees; residential child care facility employees; and state and county employees involved with the provision of child welfare services.
- ! Perform an actuarial analysis of actual vendor costs to do business in the context of current service demands; and
- ! Develop a rate-setting methodology for provider compensation using the salary survey and actuarial analysis. In developing the rate-setting methodology, the independent vendor shall solicit input from representatives of the state department, counties, the provider community, and the department of health care policy and financing. The rate-setting methodology must clearly include a process by which the full amount of any provider rate adjustments to the base rate or previously contracted rate approved by the general assembly are included as part of any final contract with a provider.

The department shall provide the joint budget committee with a report defining the new rate-setting methodology on or before April 2, 2018.

The new rate-setting methodology must be implemented on or before June 1, 2018, except for those rates that must be approved by the federal centers for medicare and medicaid services.
