January 2, 2018, and the endorsements for retail marijuana begin January 2, 2019.

The bill allows the state licensing authority to authorize single-instance transfers of retail marijuana or retail marijuana products from a retail marijuana licensee to a medical marijuana licensee based on a business need due to a change in local, state, or federal law or enforcement policy. If granted, the transfer must be completed within 6 months of the date the transfer was approved.

Under current law, the department of revenue determines the average market rate for purposes of excise tax collection on retail marijuana every 6 months. The bill gives the authority to calculate the average market rate to the marijuana state licensing authority and requires calculation on a quarterly basis. The average market rate cannot include taxes paid on sales or transfers. The bill requires a separate average market rate for unprocessed marijuana for extraction that is lower than the average market rate for unprocessed marijuana for direct sale. The bill states that the average market rate should be used to calculate the excise tax on affiliated transactions, and the contract price should be used to calculate the excise tax on unaffiliated transactions.
