authority to request information and presentations regarding data privacy and cybersecurity within state agencies and the authority to coordinate with the Colorado cybersecurity council created in the department of public safety. In addition, the committee may consider:

- ! Whether state agencies are collecting or retaining data that exceeds what is necessary and appropriate for such agencies to perform their functions;

Currently, the committee is required to review and may make recommendations to other legislative committees on any legislative measure that the speaker of the house of representatives or the president of the senate determines to be dealing with information technology.
