 Sen. Donovan; Fenberg **Fiscal Analyst:** Marc Carey (303-866-4102)

**BILL TOPIC:** ELECTRIC UTILITY ENERGY STORAGE TO ENHANCE EFFICIENCY

Fiscal Impact Summary	FY 2017-2018	FY 2018-2019
State Revenue		
State Expenditures	Minimal workload increase.	
<b>Appropriation Required:</b> None.		
<b>Future Year Impacts:</b> None.		

**NOTE:** This bill was not enacted into law; therefore, the impacts identified in this analysis do not take effect.

**Summary of Legislation**

This bill directs the Transportation Legislation Review Committee (TLRC) to study during the 2017 interim, the potential benefits and costs of energy storage systems. The bill defines energy storage systems as commercially available technology capable of absorbing energy, storing it for a period of time, and dispatching it in a prescribed manner.

**State Expenditures**

In FY 2017-18, there will be a minimal workload increase for the Colorado Public Utilities Commission (PUC) to provide information to the TLRC as it studies energy storage systems; this workload can be accomplished within existing appropriations. The study will occur as part of the regularly scheduled committee meetings in the 2017 interim. As such, no additional resources are required for the legislative service agencies that staff the TLRC.

**Effective Date**

The bill was postponed indefinitely by the Senate State, Veterans, and Military Affairs Committee on April 26, 2017
