BILL TOPIC: CAP EMPLOYER CONTRIBUTION RATES FOR PERA EMPLOYERS

NOTE: This bill was not enacted into law; therefore, the impacts identified in this analysis do not take effect.

Summary of Legislation

The bill places a cap on employers' total contribution rates to the Colorado Public Employees' Retirement Association (PERA). The cap for each division is equivalent to the 2018 calendar year rates under current law, as shown in Table 1. Table 1 also provides a breakdown of the employer contribution rate splits in 2018 under current law.

Background

Employer contribution rates are set in state law and contributions are deposited into each division's pension trust fund (and, minimally, the PERACare Trust Fund). The Amortization Equalization Disbursement (AED) and the Supplemental Amortization Equalization Disbursement (SAED) are additional employer contributions to PERA, established in 2006 and 2008 respectively, that have built in gradual annual increases set to expire in 2018.

Assessment

Under current law, employer contributions are static and the AED and SAED will no longer increase after 2018. Senate Bill 17-113 codifies these caps. There is no change in state revenue or expenditures as a result of the bill. For this reason, the bill is assessed as having no fiscal impact.

Effective Date

The bill was postponed indefinitely by the House State, Veterans, and Military Affairs Committee on March 1, 2017.
