Summary of Legislation

This bill continues the Colorado Health Service Corps Advisory Council indefinitely. The advisory council is scheduled to repeal on July 1, 2017.

Background

The Colorado Department of Public Health and Environment (CDPHE) operates the Colorado Health Service Corps Program, which provides educational loan repayment for medical professionals who agree to provide primary health services in a federally designated health professional shortage area. Participating medical professionals serve in public or non-profit clinics in low-income or rural areas throughout the state. The Colorado Health Service Corps Advisory Council assists the program by reviewing program applications from health professionals and making recommendations. The advisory council has 13 members, appointed by the Governor, from a variety of health-related professions and organizations.

Fiscal Impact of Programs Set to Expire

This bill continues an advisory council in the CDPHE that is set to repeal effective July 1, 2017. Members of the Colorado Health Service Corps Advisory Council serve without compensation or reimbursement of expenses. Currently, the CDPHE has costs of about \$300 per year to provide lunches to advisory council members during their meetings, which occur about two times per year. No change in appropriations is required to reflect this minimal continuation of costs in the CDPHE.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
