State Revenue		
State Expenditures <i>Continuing expenditures</i> General Fund	Minimal increase.	Minimal increase.
Appropriation Required: None.		
Future Year Impacts: Ongoing minimum expenditure increase.		

Summary of Legislation

This bill indefinitely continues the School Safety Resource Center Advisory Board. Under current law, the School Safety Resource Center Advisory Board is scheduled to repeal July 1, 2017.

Background

The School Safety Resource Center Advisory Board was established in 2008 to foster safe and secure learning environments in all schools, preschool through higher education. The School Safety Resource Center Advisory Board makes recommendations to the Colorado School Safety Resource Center which works with schools and local agencies and provides free consultation, resources, training and technical assistance to schools and community partners throughout the state. The School Safety Resource Center Advisory Board consists of at least 14 members who serve two year terms. The members are not compensated, but may be reimbursed for travel expenses. These reimbursements are paid through the School Safety Resource Center which has an annual appropriation of \$520,591 General Fund and \$144,000 cash funds. The School Safety Resource Center is not subject to repeal.

State Expenditures

By continuing the School Safety Resource Center Advisory Board, the bill increases state General Fund expenditures in the Department of Public Safety by a minimal amount per year beginning in FY 2017-18 and continuing indefinitely to reimburse board members for expenses

incurred. These costs represent a continuation of the current expenses incurred by the board and are assumed to be minimal. No new appropriations are needed because these expenses are funded through the School Safety Resource Center appropriation. Workload also increases for the Departments of Education, Human Services, Public Health and Environment, Law, and Public Safety for participation on the board.

School District Impact

By indefinitely continuing the School Safety Resource Center Advisory Board, this bill continues the workload of school districts, local law enforcement, and district attorneys for participation on the board.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
