Under current law, a 2-year institution of higher education may provide a concurrent enrollment program or course to local education providers that are located within the institution's college service area approved by the Colorado commission on higher education (commission). The bill requires the commission to establish a policy that allows a 2-year institution of higher education to provide a concurrent enrollment program or course to a local education provider that is not within its college service area if the designated 2-year institution of higher education chooses not to provide a concurrent enrollment program or course requested by the local education provider.

The bill specifies how concurrent enrollment programs or courses provided by a 2-year institution outside of its service area will be funded.

1 *Be it enacted by the General Assembly of the State of Colorado:*
