HB 18-1392

FINAL FISCAL NOTE

Drafting Number:	LLS 18-0769	Date:	August 1, 2018
Prime Sponsors:	Rep. Kennedy; Rankin Sen. Coram; Donovan	Bill Status:	Postponed Indefinitely
		Fiscal Analyst:	Bill Zepernick 303-866-4777 Bill.Zepernick@state.co.us

Bill Topic: STATE INNOVATION WAIVER REINSURANCE PROGRAM

Summary of Fiscal Impact:

<input checked="" type="checkbox"/> State Revenue (<i>conditional</i>)	<input type="checkbox"/> TABOR Refund
<input checked="" type="checkbox"/> State Expenditure (<i>partly conditional</i>)	<input checked="" type="checkbox"/> Local Government
<input type="checkbox"/> State Transfer	<input checked="" type="checkbox"/> Statutory Public Entity

This bill would have required the Commissioner of Insurance to seek federal approval to establish a reinsurance program to lower health insurance premiums. The bill would have resulted in one-time costs to seek a federal waiver and, conditional upon federal approval, would have increased state revenue and expenditures for at least five years.

Appropriation Summary: For FY 2018-19, the bill requires and includes an appropriation of \$15,000 to the Department of Regulatory Agencies.

Fiscal Note Status: This final fiscal note reflects the reengrossed bill. This bill was not enacted into law; therefore, the impacts identified in this analysis do not take effect.

Table 1
State Fiscal Impacts Under HB 18-1392*

		FY 2018-19	FY 2019-20
Revenue	Cash Funds	\$67,500,000	\$135,000,000
	Total	\$67,500,000	\$135,000,000
Expenditures	Cash Funds	\$67,515,000	\$135,000,000
	Federal Funds	\$67,500,000	\$135,000,000
	Total	\$135,015,000	\$270,000,000
	Total FTE	up to 4.0 FTE	up to 8.0 FTE
Diversion	General Fund	(\$15,000)	-
	Cash Funds	\$15,000	-
	Total	\$0	-
TABOR Refund		-	-

* In FY 2018-19, \$15,000 in cash fund expenditures and the General Fund diversion will occur upon passage of the bill. The remaining expenditures and all revenue in FY 2018-19 and future years are conditional upon federal approval of a State Innovation Waiver.

Summary of Legislation

This bill requires the Commissioner of Insurance to seek a State Innovation Waiver under the federal Affordable Care Act to create a state reinsurance program in Colorado. If federal approval is received, the reinsurance program will apply to 2019 health plans sold on the individual health insurance market. To fund the reinsurance program, the Commissioner is authorized to assess a fee on state-regulated health insurance carriers of up to 2 percent of premiums. In addition, the reinsurance program will be supported by federal funds that would have otherwise been provided to consumers as federal advanced premium tax credits.

The bill directs the Commissioner to set the parameters of the reinsurance program so that claims costs are reduced as follows:

- between 30 and 35 percent in geographic rating areas five and nine (Mesa County and western Colorado);
- between 20 and 25 percent in geographic rating areas four, six, seven, and eight (Larimer, Weld, and Pueblo counties, and the eastern plains); and
- between 15 and 20 percent in geographic rating areas one, two, and three (Boulder, El Paso, and Teller counties, and the Denver metro area).

Fees collected from health insurers and available federal funds under the State Innovation Waiver are to be deposited into the newly created Reinsurance Program Cash Fund. The reinsurance program is created as an enterprise under TABOR and revenue is exempt from the TABOR revenue limits. The Division of Insurance is required to report annually on the reinsurance program as part of the Department of Regulatory Agencies (DORA) SMART Act hearing.

Background

Reinsurance. Reinsurance is a type of insurance available to insurance carriers to transfer a portion of the risk to one or more other carriers, thereby reducing the risk of having to pay high-cost claims. By covering a portion of costs for high-cost claims, reinsurance can allow insurance carriers to charge lower premiums to consumers.

State Innovation Waivers. Section 1332 of the federal Affordable Care Act (ACA) allows states to apply for a waiver of various requirements of the federal law to pursue innovative strategies for providing residents with access to high-quality, affordable health care. To apply for a waiver, the state must enact a law authorizing a state agency to seek a waiver. To receive a waiver, a state must show that the waiver provides access to quality health care that will be least as comprehensive and affordable as it would be provided absent the waiver; that coverage is provided to a comparable number of residents as would be provided coverage absent a waiver; and that the changes under the waiver do not increase the federal deficit.

Federal health insurance subsidies. In 2017, Coloradans received about \$375 million in federal advanced premium tax credits to purchase health insurance through Connect for Health Colorado, the state's health insurance exchange. These subsidies are based on household income, premium amount paid, and the cost of a benchmark health plan. Subsidies are available to persons with income between 133 and 400 percent of the federal poverty level.

State Revenue

Conditional upon federal approval of a State Innovation Waiver, this bill increases state cash fund revenue by \$67.5 million in FY 2018-19 and \$135.0 million in FY 2019-20. This revenue is from fees assessed on health insurance carriers and is based on the amount necessary to fund the reinsurance program. The first-year impact is prorated to reflect a half year of implementation. The exact fee amount will be determined by the Commissioner of Insurance, but may not exceed 2 percent of premiums collected by health insurers. This revenue is exempt from TABOR revenue limits.

State Diversions

This bill diverts \$15,000 from the General Fund in FY 2018-19. This revenue diversion occurs because the bill increases costs in the Division of Insurance in DORA, which is funded with premium tax revenue that would otherwise be credited to the General Fund.

State Expenditures

This bill increases state expenditures in DORA by \$135.0 million and up to 4.0 FTE in FY 2018-19 and \$270.0 million and up to 8.0 FTE in FY 2019-20. The majority of these costs are conditional upon federal approval of the state waiver. These costs, which are paid from cash funds and federal funds, are summarized in Table 2 and discussed below.

**Table 2
Expenditures Under HB 18-1392**

	FY 2018-19	FY 2019-20
Department of Regulatory Agencies		
Actuarial Analysis	\$15,000	-
Reinsurance Payments and Administration	\$135,000,000	\$270,000,000
Total Cost	\$135,015,000	\$270,000,000
Total FTE	up to 4.0 FTE	up to 8.0 FTE

Waiver application. DORA will require \$15,000 from the Division of Insurance Cash Fund for actuarial and rate analysis to prepare the federal waiver application. Much of the necessary analysis and work for this waiver application was conducted pursuant to Senate Bill 17-300, which limits the costs under this bill compared to other similar waiver applications.

Reinsurance payments and administration. Based on available revenue for the reinsurance program, the fiscal note estimates that reinsurance payments to health insurers will be approximately \$135.0 million in FY 2018-19 and \$270.0 million in FY 2019-20, conditional upon federal approval. These costs are split between the Reinsurance Program Cash Fund and federal funds. These amounts also include the administrative costs in DORA to operate the program. At this time, an exact estimate of the FTE and administrative costs are not available, but are estimated to be between \$500,000 and \$1.0 million per year, and may require up to 8.0 FTE when fully implemented. These costs will also be paid using the Reinsurance Program Cash Fund and federal funds. The reinsurance program operates as a state enterprise and funds are continuously appropriated to DORA from the cash fund.

State employee insurance. By charging a fee on state-regulated health plans, state agencies' costs for employee health insurance premiums may increase. Currently, one of the two health carriers offering plans to state employees is a state-regulated plan on which the fee would be assessed. Because state employee health insurance contributions are based upon prevailing market rates, with costs shared between the employer and employee, this bill is not expected to affect the state's share of employee health insurance premiums until FY 2019-20. Because insurance rates are influenced by a number of variables, the exact effect of this bill cannot be determined. Any increase caused by the bill will be addressed through the total compensation analysis included in the annual budget process.

Statutory Public Entity

If the reinsurance program succeeds in decreasing health insurance premiums, it will likely spur additional consumers to seek health coverage through Connect for Health Colorado. This could increase customer service and other expenses for Connect for Health Colorado. Correspondingly, additional consumers purchasing health insurance through the health insurance exchange will generate additional revenue for Connect for Health Colorado.

Local Government

Similar to the state employee health insurance premium impact above, local governments that offer state-regulated health plans to their employees may have an increase in health insurance premium costs. Given that health insurance premiums are affected by a number of factors, the exact impact cannot be estimated.

Technical Note

Amendments adopted by the House eliminated an 8 percent assessment on stop-loss insurance, which limits the revenue for the reinsurance program to an assessment of up to 2 percent on state-regulated individual and group health plans. Even though the revenue base for the program has been reduced, the bill still mandates a similar level of claim cost reductions for the reinsurance program. Therefore, it is unclear if the reinsurance program will be able to meet the claim reduction targets within the current revenue source under the bill.

Effective Date

This bill was postponed indefinitely by the Senate State, Veterans, and Military Affairs Committee on May 4, 2018.

State Appropriations

For FY 2018-19, the bill requires and includes an appropriation of \$15,000 from the Division of Insurance Cash Fund to DORA.
