This bill repeals the requirement for an odometer reading for the verification of a vehicle's identification number. It will increase state and county clerk workload in FY 2018-19 only.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: The fiscal note reflects the enacted bill.

Summary of Legislation

Under current law, when a motor vehicle is being titled or registered, the verification of a motor vehicle's identification number (VIN) requires an odometer reading. This bill repeals the requirement for an odometer reading during VIN verification.

State Expenditures

In FY 2018-19 only, this bill will increase workload in the Department of Revenue to update rules, forms, manuals and websites with the change in requirements. It will also provide training to authorized agents, title and registration staff, law enforcement, and other entities. This increase in workload can be accomplished within existing appropriations.

Local Government

In FY 2018-19, workload may increase for county clerks to update rules and provide training on the change in requirements. This increase in workload is expected to be minimal.

Effective Date

The bill was signed into law by the Governor on March 29, 2018, and takes effect August 8, 2018, assuming no referendum petition is filed.
