Summary of Legislation

This bill makes technical modifications to various provisions of the Uniform Election Code of 1992.

Related to **voter registration and affiliation**, the bill:

- clarifies voter registration requirements for persons experiencing homelessness and persons who are awaiting trial or serving a sentence for something other than a felony conviction;
- makes changes to facilitate the registration of electors at a driver license examination facility, and requires county clerk and recorders to send a notice when a voter changes his or her name or address to verify that the information is correct;
- requires the Department of State to regularly provide the Department of Revenue with current voter registration information to determine whether an individual is registered to vote when obtaining or renewing a license or identification card;
- specifies that a declaration or change of party affiliation made by an unaffiliated elector must be deferred if they have already been mailed a primary election ballot packet; and
- prohibits an unaffiliated elector from signing a petition for a candidate of a major political party.

Related to the **election process**, the bill:

- requires the state central committee of each major political party to provide information concerning the membership and bylaws or rules of the county central committees of the party;
- prohibits a write-in vote for president unless it also includes a write-in vote for vice-president;
- removes language requiring election judges to certify that they reside in a political subdivision;
- requires supervisor judges have different political party affiliations if more than one judge is supervising at a voter service and polling center (VSPC);
- repeals provisions governing the process for applying for an absentee ballot, and clarifies that if the declaration accompanying a federal write-in absentee ballot is received after the election, it is treated as an application to register to vote in subsequent elections;
- changes the manner for calculating the number of signatures required for a petition to recall a School District Director; and
- eliminates the requirement that a secrecy sleeve be included in a mail ballot packet.

The bill **modifies deadlines** for:

- voter registration in advance of a political party caucus, assembly, or convention;
- the training and certification of election judges;
- filing comments pertaining to a ballot issues and referred ballot measures;
- designated election official's (DEO) to complete certain tasks;
- the completion of certain duties by the canvass board;
- the transmission of the abstract of votes, and the compilation and total of election returns;
- vote recounts in a coordinated election;
- notarized written request for a recount; and
- a signer to request that his or her name be stricken from a recall petition.

Additionally, the bill removes certain obsolete provisions of statute and makes various technical changes to align statute with current practices.

Local Government

Beginning in the current FY 2017-18, this bill will both increase and decrease costs and workload counties and municipalities, as explain below.

This bill will increase costs for counties to mail voters a confirmation of a name or address change, as required by the bill. Additionally, the bill eliminates the requirement that a secrecy sleeve be included in a mail ballot packet, and this may reduce statewide costs for counties by up to \$100,000. Additionally, this bill will increase workload for municipalities to revise charters or codes to reflect new deadlines in the bill for coordinated elections.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
