1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds and declares that:

4 (a) Colorado law has traditionally recognized the right of an adult  
5 or his or her authorized agent to accept or reject health care or treatment;

6 (b) Each adult has the right to establish instructions for the  
7 administration of behavioral health treatment;

8 (c) Current instruments for making instructions concerning  
9 medical orders for scope of treatment do not adequately address the  
10 complexities associated with behavioral health treatment; and

11 (d) Adults with behavioral health disorders are in particular need  
12 of a consistent method for identifying and communicating critical  
13 behavioral health treatment history, decisions, and preferences that each  
14 sector of the health care community will recognize and follow.

15 (2) The general assembly therefore concludes that it is in the best  
16 interests of the people of Colorado to create a behavioral health orders for  
17 scope of treatment. Consistent with the goal of enhancing

1 patient-centered, compassionate care through methods to enhance  
2 continuity and communication across health care settings, behavioral  
3 health orders for scope of treatment will provide a process for timely  
4 discussion between adults, their health care providers, and their  
5 authorized agents about behavioral health treatment, and will ensure those  
6 preferences are clearly and unequivocally documented.
