HOUSE
Amended 2nd Reading
April 12, 2019

The bill requires the department of education, in consultation with the office of suicide prevention (office), the youth advisory council, and the suicide prevention commission, to create and maintain a mental health education literacy resource bank. The resource bank is available to the public free of charge.

The bill requires the state board of education to adopt standards related to mental health, including suicide prevention.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) The federal centers for disease control and prevention found
5 suicide to be the tenth leading cause of death for all ages in 2017 and is
6 currently the leading cause of death for Colorado youth who are ten
7 through fourteen years of age;

8 (b) According to the Colorado Health Institute, Colorado has the
9 tenth highest suicide rate in the nation, and rates of suicide in the eastern
10 plains of Colorado doubled from 2016 to 2017;

11 (c) According to the national institute of mental health,
12 approximately twenty-one-point-four percent of youth who are eight
13 through fifteen years of age experience a severe mental health disorder;

14 (d) According to the American Association of Suicidology, the
15 suicide rate for youth who are ten through fourteen years of age has
16 increased by more than fifty percent over the past three decades; and

17 (e) Youth who are ten through fourteen years of age often avoid
18 obtaining, or are legally unable to obtain without parental consent,
19 outpatient psychotherapy services that would help them prior to reaching
20 crisis levels because they are embarrassed or concerned about speaking
21 with their parent or legal guardian about their mental health concerns and
22 situations.

1 (2) The general assembly therefore declares that it is a matter of
2 statewide concern to allow youth who are twelve years of age or older to
3 have legal access to outpatient psychotherapy services that might
4 otherwise be unavailable without the consent of or notification to the
5 youth's parent or legal guardian. Providing these youth with access to
6 outpatient psychotherapy services is intended to reduce youth suicides and
7 allow registered psychotherapists and licensed social workers to work
8 with youth to teach them functional coping skills. Mental health
9 professionals would have further opportunity to help these youth build
10 healthy connections with parents or legal guardians by increasing
11 communication and strengthening the bond between parent and child,
12 thus building an ongoing nonclinical support system for youth to use to
13 manage their mental health concerns.

14 **SECTION 2.** In Colorado Revised Statutes, 12-43-201, **amend**
15 (9)(a) as follows:
