The commission and council are scheduled to repeal on September 1, 2024, after review by the department of regulatory agencies.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. The general assembly finds and declares that, in 2017, suicide was the leading cause of death for children and youth 10 to 24 years of age in the state of Colorado. Childhood and adolescence are critical periods of risk for the onset of a behavioral health disorder. Nationally, half of all lifetime cases of mental illness begin by 14 years of age, and three-quarters begin by 24 years of age. Children and youth may be exposed to trauma, maltreatment, and
other adverse childhood experiences that may be risk factors for behavioral health diagnoses in adolescence and adulthood, and there is a need to strengthen the protective factors for child and youth health and safety because children and youth have unique physical and behavioral health needs. Additionally, many children and youth are left undiagnosed and untreated because they have not been exposed to adverse childhood experiences or do not show outward signs that would identify the child or youth as at risk.

SECTION 2. In Colorado Revised Statutes, add part 8 to article 5 of title 25.5 as follows:

PART 8

CHILDREN AND YOUTH BEHAVIORAL HEALTH SYSTEM IMPROVEMENTS

25.5-5-801. Legislative declaration. (1) The General Assembly finds and declares that:

(a) In order to provide quality behavioral health services to families of children and youth with behavioral health challenges, behavioral health services should be coordinated among state departments and political subdivisions of the state and should be culturally competent, cost-effective, and provided in the least restrictive settings;

(b) The behavioral health system and child- and youth-serving agencies are often constrained by resource capacity and systemic barriers that can create difficulties in providing appropriate and cost-effective interventions and services for children and youth;

(c) Children and youth with behavioral health
CHALLENGES MAY REQUIRE A MULTI-SYSTEM LEVEL OF CARE THAT CAN LEAD TO DUPLICATION AND FRAGMENTATION OF SERVICES. TO AVOID THESE PROBLEMS, KEEP FAMILIES TOGETHER, AND SUPPORT CAREGIVERS DURING A CHILD'S OR YOUTH'S BEHAVIORAL HEALTH CHALLENGE, DEPARTMENTS AND POLITICAL SUBDIVISIONS OF THE STATE MUST COLLABORATE WITH ONE ANOTHER; AND

(d) The Colorado State Innovation Model, an initiative housed in the office of the Governor, has worked to integrate behavioral health and physical health, has made significant progress advancing the use of alternative payment models, and has created infrastructure for screening and innovative payment reforms. However, future work is needed to further expand and improve integrated services for children and families, with a focus on early and upstream interventions.

(2) The general assembly further finds and declares that, building upon work completed by Colorado's trauma-informed system of care, Colorado must implement a model of comprehensive system of care for families of children and youth with behavioral health challenges.
