SB 19-076

REVISED FISCAL NOTE

(replaces fiscal note dated January 16, 2019)

Drafting Number: LLS 19-0149
Prime Sponsors: Sen. Scott

Date: February 14, 2019
Bill Status: Senate Second Reading
Fiscal Analyst: Katie Ruedebusch | 303-866-3001
Katie.Ruedebusch@state.co.us

Bill Topic: CDOT CONSULTING ENGINEER CONTRACTS

Summary of Fiscal Impact:

<input type="checkbox"/> State Revenue	<input type="checkbox"/> TABOR Refund
<input checked="" type="checkbox"/> State Expenditure	<input type="checkbox"/> Local Government
<input type="checkbox"/> State Transfer	<input type="checkbox"/> Statutory Public Entity

The bill requires the Efficiency and Accountability Committee in the Colorado Department of Transportation to study and make recommendations relating to consulting engineering contracts. It increases state workload beginning in FY 2019-20.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: This fiscal note has been revised to reflect the introduced bill as amended by the Senate Transportation and Energy Committee.

Summary of Legislation

The bill requires the Efficiency and Accountability Committee (committee) in the Colorado Department of Transportation (CDOT) to study the following issues:

- the implementation of fixed bid consulting contracts instead of hourly contract bids;
- the quality assurance process; and
- incentives for closing contracts.

The committee must report its recommendations and findings to the CDOT Executive Director and the Transportation Commission. In addition, CDOT is required to present the committee's recommendations to the General Assembly at its annual State Measurement for Accountable, Responsive, and Transparent Government (SMART) Act hearing.

Background

Currently, CDOT pays for construction management and engineering services by the hour. However, CDOT has used fixed bid, or lump sum payment, for certain bridge or design projects. CDOT issues approximately 35 consulting contracts annually.

CDOT is primarily funded from the State Highway Fund (SHF), which is comprised of federal funds, the state's share of the Highway Users Tax Fund, and other various sources of revenue. The decision-making authority for the majority of state transportation revenue rests with the Transportation Commission, which is responsible for allocating funds from the SHF.

Efficiency and Accountability Committee — CDOT. Originally convened in 2009, the committee consists of four state legislators and representatives of counties, municipalities, nonpartisan good governance organizations, and others as determined by the commission. The committee was formed to assist with CDOT's transportation planning efforts, and to ensure that CDOT and the Transportation Commission meet all federal and state requirements. The Efficiency and Accountability Committee repeals July 1, 2019, pending a sunset review. See Technical Note.

State Expenditures

The bill will increase workload for the Efficiency and Accountability Committee in CDOT to study the issues discussed above and report its findings. Funding from the SHF is allocated by the Transportation Commission, which will adjust any funds that result from an increase in CDOT expenditures.

Technical Note

The Efficiency and Accountability Committee is scheduled to sunset on July 1, 2019. In order to meet the bill's requirements, the committee may need to continue past July 1, 2019.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
