Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

The bill authorizes human remains to be converted to soil using a container that accelerates the process of biological decomposition, also known as "natural reduction".

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters or bold & italic numbers indicate new material to be added to existing statute.
Dashes through the words indicate deletions from existing statute.

Current law has various provisions that deal with burial, cremation, interment, and entombment. In connection with authorizing natural reduction, the bill replaces these terms with the phrase "final disposition", which term is defined to include natural reduction. The following types of provisions are updated to reflect the option to use natural reduction:

- ! Life insurance statutes;
- ! Preneed funeral insurance contracts;
- ! The "Mortuary Science Code";
- ! Funeral picketing statutes;
- ! Litigation damages;
- ! The "Colorado Probate Code";
- ! The "Disposition of Last Remains Act";
- ! The "Revised Uniform Anatomical Gift Act";
- ! Missing person reports for unidentified human remains;
- ! Public peace and order statutes;
- ! Vital statistics statutes;
- ! The "Colorado Public Assistance Act"; and
- ! Firefighter pension plans.

Natural reduction is added to the statutes that regulate funeral establishments, and this addition will result in the regulation of the natural reduction process. But the definitions of "cremation" and "mortuary science practitioner" are amended so that a practitioner of natural reduction is not regulated as a cremationist or mortuary science practitioner.
