A BILL FOR AN ACT

CONCERNING HEALTH INSURANCE COVERAGE FOR AN ANNUAL MENTAL HEALTH WELLNESS EXAMINATION PERFORMED BY A QUALIFIED MENTAL HEALTH CARE PROVIDER, AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

The bill adds a requirement, as part of mandatory health insurance coverage of preventive health care services, that health plans cover an annual mental health wellness examination of up to 60 minutes that is
performed by a qualified mental health care provider. The coverage must:

- Be comparable to the coverage of a physical examination;
- Comply with the requirements of federal mental health parity laws; and
- Not require any deductibles, copayments, or coinsurance for the mental health wellness examination.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and determines that:

(a) Prevention and early identification of mental health issues can lead to better outcomes for families and all people throughout their lives;

(b) Mental health conditions that occur in youth before the age of six can interfere with emotional, cognitive, and physical development;

(c) The number of aging adults who have a mental health condition is expected to double to fifteen million in the next two decades, leading to increased health care use and higher health care costs;

(d) With an increase in suicide and the number of overdose deaths on the rise, it is imperative for Colorado to increase access to preventive annual mental health wellness examinations;

(e) Annual mental health wellness examinations help identify potential mental health issues early on and allow individuals to be offered services and supports to address their needs before an issue progresses or becomes a crisis;

(f) Primary care providers are important in early detection of mental health issues but often lack the ability to provide adequate education, consultation, and treatment options to clients in need of further mental health support; and

(g) Therefore, it is imperative that our system works to integrate
and colocate mental health services in primary care settings and opens
access to annual mental health wellness exams for all Coloradans, starting
at the prenatal phase through the end of life.

SECTION 2. In Colorado Revised Statutes, 10-16-104, amend
(18)(a)(I) introductory portion; and add (18)(b.7), (18)(c)(III.7), and
(18)(c)(III.9) as follows:

section:

(b.7) The coverage required by this subsection (18) must

coverage provided for a physical examination and must comply
with the requirements of the MHPAEA.
