Bill Topic: SUNSET OCCUPATIONAL THERAPY PRACTICE ACT

Summary of Fiscal Impact:

- State Revenue
- State Expenditure
- State Transfer
- TABOR Refund
- Local Government
- Statutory Public Entity

Sunset bill. HB 20-1230 continues the licensing of occupational therapists and assistants in the Department of Regulatory Agencies, which is scheduled to repeal on September 1, 2020. State fiscal impacts include the continuation of the program's current revenue and expenditures, as well as an increased workload from changes to the program under the bill. The program is continued through September 1, 2030.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: This fiscal note reflects the enacted bill.

Summary of Legislation

This bill continues the licensing of occupational therapists and assistants until September 1, 2030, and makes the following changes:

- adds occupational therapy consultant and occupational therapy assistant to the list of titles a person can use if they are licensed in the state and allows occupational therapy assistants to use the abbreviation O.T.A. or C.O.T.A.;
- clarifies that the law does not restrict the activities of a person fulfilling an occupational therapy doctoral capstone experience under appropriate supervision;
- adds failing to make essential or falsifying entries on a patent record, committing abuse of health insurance, and committing a fraudulent insurance act to the grounds of discipline;
- adds additional definitions concerning the scope of practice for occupational therapists; and
- reorganizes sections of statute and makes other technical changes.

Continuing Program Impacts

Based on the department's FY 2018-19 expenses, the Department of Regulatory Agencies (DORA) is expected to have revenue and expenditures of \$160,000 to administer the licensing of occupational therapists and their assistants. If this bill is enacted, current revenue and expenditures will continue for the program starting in FY 2021-22. This continuing revenue is subject to the state TABOR limits. If this bill is not enacted, the program will end on September 1, 2021, following a wind-down period, and state revenue and expenditures will decrease starting in FY 2021-22 by the amounts shown in Table 1. The changes to the program that drive additional revenue and costs are discussed in the State Expenditure sections below. The fiscal note does not identify any change to TABOR refund because the revenue is already accounted for in the LCS revenue forecast.

State Expenditures

Starting in FY 2020-21, this bill will increase workload within the Division of Professions and Occupations in DORA to update materials, conduct outreach, and to promulgate any rules. In addition, to the extent there are more disciplinary hearings, workload will also increase in the division. The fiscal note that any increases in workload will be minimal and can be accomplished within existing appropriations.

Effective Date

The bill was signed into law by the Governor on July 11, 2020, and takes effect on September 14, 2020, assuming no referendum petition is filed.
