federal CARES act funding is included, consist of one-time budget measures. Many of these changes apply for FY 2020-21 only, and thus require scheduled increases in General Fund appropriations and transfers in FY 2021-22 and subsequent fiscal years. These amounts represent the 'deficit' with which the Joint Budget Committee and General Assembly would begin balancing efforts in FY 2021-22 without an offsetting increase in forecasted revenue. This bill would not require a General Fund appropriation for FY 2020-21. However, it is projected to require General Fund appropriations of \$10,743 in FY 2022-23, further increasing the base General Fund commitment in that fiscal year. This further reduces the amount of General Fund available for appropriations and obligations by the same amount.
