applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

The bill creates the Colorado prescription drug affordability review board (board) as an independent unit of state government and requires the board to perform affordability reviews of prescription drugs and establish upper payment limits for prescription drugs the board determines are unaffordable for Colorado consumers. The board is also required to promulgate rules as necessary for its purposes.

The board shall determine by rule the methodology for establishing an upper payment limit for a prescription drug. An upper payment limit applies to all purchases of and payer reimbursements for the prescription drug dispensed or administered to individuals in the state in person, by mail, or by other means. Any savings generated for a health benefit plan as a result of an upper payment limit established by the board must be used by the carrier that issued the health benefit plan to reduce costs to consumers.

On and after January 1, 2022, the bill prohibits any purchase or payer reimbursement for a prescription drug from exceeding an upper payment limit established by the board for that prescription drug. A person who violates the prohibition may be subject to a fine of \$1,000 for each violation. Final board decisions are subject to judicial review.

A person aggrieved by a decision of the board may appeal the decision within 60 days. The board shall consider the appeal and issue a final decision concerning the appeal within 60 days after the board receives the appeal.

Any prescription drug manufacturer (manufacturer) that intends to withdraw a prescription drug for which the board has established an upper payment limit from sale or distribution within the state must notify, at least 180 days before the withdrawal:

- The commissioner;
- The attorney general; and
- Each entity in the state with which the manufacturer has contracted for the sale or distribution of the prescription drug.

A manufacturer who fails to comply with the notice requirement may be required to pay a penalty of up to \$500,000.

For all prescription drugs dispensed at a pharmacy and paid for by a carrier during the immediately preceding calendar year, the bill requires each carrier and each pharmacy benefit management firm acting on behalf of a carrier to report certain information.

The bill creates the Colorado prescription drug affordability advisory council to provide stakeholder input to the board.

The board must submit an annual report to the governor and to subject matter committees of the general assembly summarizing the

activities of the board during the preceding calendar year.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) Excessive costs for prescription drugs:

5 (I) Negatively impact the ability of Coloradans to obtain
6 prescription drugs, and price increases that exceed reasonable levels
7 endanger the health and safety of Coloradans;

8 (II) Threaten the economic well-being of Coloradans and
9 endanger their ability to pay for other necessary and essential goods and
10 services, including housing, food, and utilities;

11 (III) Contribute significantly to a dramatic and unsustainable rise
12 in health-care costs and health insurance premiums that threatens the
13 financial health of Coloradans and their ability to maintain their physical
14 health;

15 (IV) Pose a threat to the health and safety of all Coloradans but
16 disproportionately harm people of color and Coloradans with low
17 incomes; and

18 (V) Contribute significantly to rising costs for health care that is
19 provided to public employees, including employees of state, county, and
20 local governments, school districts, and institutions of higher education,
21 and to public retirees whose health-care costs are funded by public
22 programs, thereby threatening the ability of state and local governments
23 to adequately fund those programs and other important services, such as
24 public education and public safety;

25 (b) Lack of transparency in health insurance costs and wholesaler

1 and pharmacy benefits manager discounts and margins prevents
2 policymakers and the public from gaining a true understanding of the
3 costs of prescription drugs; and

4 (c) Information relating to the cost of prescription drugs in
5 Colorado is necessary to provide accountability to the state and to all
6 Coloradans for prescription drug pricing.

7 (2) The general assembly therefore declares that in exercise of its
8 police powers and responsibility for the public health, safety, and general
9 welfare of Colorado residents, it is imperative that Colorado take
10 measures to reduce excessive prescription drug costs for Coloradans who
11 cannot afford prescription drugs and create a prescription drug
12 affordability board with the authority to review prescription drug costs
13 and protect Colorado residents and entities who purchase or reimburse for
14 prescription drugs from the excessive costs of prescription drugs,
15 including but not limited to state and local governments, contractors and
16 vendors, commercial health plans, providers, and pharmacies.
