Section 1 of the bill creates the keep Colorado wild pass (wild pass) for entry into state parks and other participating public lands. Commencing no earlier than January 1, 2023, but no later than January 1, 2024, each resident with one of the following motor vehicles that is not a commercial vehicle is assessed a fee for the wild pass (wild pass fee) when registering the motor vehicle:

- A passenger motor vehicle;
- A light-weight truck with an empty vehicle weight of less than or equal to 16,000 pounds;
- A motorcycle; or
- A recreational vehicle.

A resident may decline to pay the wild pass fee when registering the resident's motor vehicle, and nonpayment of the wild pass fee does not affect the resident's ability to register the motor vehicle.

The parks and wildlife commission in the department of natural resources (commission) is required to adopt rules to set the wild pass fee and, for income-eligible households, a reduced wild pass fee and may establish a process for applying existing discounts or free entry to persons eligible for the discount or free entry to the wild pass. The commission may also adopt rules establishing a separate fee for a pass, including a separate fee for passes for nonresidents, residents who decline to pay the wild pass fee when registering the resident's motor vehicle, and residents who do not possess one of the motor vehicles listed above.

For each state fiscal year, the division of parks and wildlife in the department of natural resources (division) will use the wild pass fees collected to achieve stated goals such as providing affordable access to state parks and public lands; managing state parks; supporting search and rescue and avalanche safety efforts; conserving vulnerable species and habitats; funding equity, diversity, and inclusion programs; and financing regional outdoor partnerships for community-driven planning and projects.

The division is required to:

- Develop language to notify motor vehicle registrants of their option to decline to pay the wild pass fee, which notice must be conspicuously placed on registration documents and on the division's and the division of motor vehicle's websites; and
- Implement a public outreach campaign to educate the public about the availability of the wild pass through the motor vehicle registration process and about access to state parks and public lands that the wild pass will provide.

Section 2 requires, on or before March 1, 2025, and on or before March 1, 2030, the division to make a presentation regarding its most

recent annual written report on the number of wild passes sold in the previous 12 months, an accounting of the expenditures made with the increased revenue generated from sales of the wild pass, and a summary of the effect that those increased expenditures have had on the achievement of the stated goals to a joint session of the legislative committees with jurisdiction over agriculture matters. The division is required to send the annual reports to the legislative committees with jurisdiction over natural resources and to make the reports available to the public.

Section 3 repeals limitations on the amount that the commission may increase fees for daily and annual park passes purchased by individuals who do not purchase the discounted wild pass.

Section 4 authorizes the division to enter into cooperative agreements with other land management agencies and requires the division to develop a program for seeking, accepting, and expending gifts, grants, or donations.

Section 5 establishes that a person's decision to decline to pay for the wild pass fee does not affect the person's ability to register a motor vehicle.

Sections 6 through 8 make technical changes.

Be it enacted by the General Assembly of the State of Colorado:
