1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 finds and declares that:

4 (a) Colorado currently has more than 1.25 million residents over  
5 the age of sixty, and by 2030, there will be over 1.5 million residents over  
6 the age of sixty;

7 (b) The statewide population of Coloradans over the age of  
8 seventy-five is approximately 327,000, and by 2030, 559,000 Coloradans  
9 will be over the age of seventy-five;

10 (c) Compared to the rest of the United States, Colorado has the  
11 second-fastest aging population, with Coloradans over the age of sixty  
12 outnumbering Coloradans eighteen years of age and younger as soon as  
13 2023, with a widening margin through 2050;

14 (d) The federal "Older Americans Act of 1965" designates area  
15 agencies on aging as the leader on all aging issues in the planning and  
16 service areas. The mission of the area agency on aging network is to assist  
17 older adults to lead independent, meaningful, and dignified lives in their  
18 own homes and communities for as long as they choose.

19 (e) The COVID-19 public health emergency has amplified the

1 demand for community-based services, with the pandemic significantly  
2 impacting older Coloradans and highlighting the importance of  
3 supporting aging Coloradans in the community. As of December 2020,  
4 Coloradans over the age of sixty accounted for 90% of COVID-19-related  
5 deaths.

6 (2) Therefore, the general assembly finds there must be  
7 investments in area agencies on aging that address the systemic health and  
8 economic challenges that have been exacerbated by the COVID-19 public  
9 health emergency. Providing critical programs for older Coloradans will  
10 immediately improve their physical and mental health. Fall prevention  
11 programs will keep seniors out of the hospital and free from long-term  
12 debilitating effects that often require moving into a nursing home facility.  
13 Home modifications for increased accessibility will allow seniors to  
14 safely live independently in their own homes for as long as possible.  
15 Transportation services will guarantee greater access to critical services  
16 and ensure independence for seniors. These programs will improve the  
17 health, well-being, and security of older Coloradans and provide much  
18 needed relief and recovery to the population hit hardest by the COVID-19  
19 pandemic.
