- Allows transmission providers to include certain contractual provisions in powerline trail contracts;
- Allows transmission providers to recover costs incurred in implementing and complying with the bill through an increase in rates;
- Requires transmission providers to develop and maintain informational resources to encourage the construction of new powerline trails;
- Requires a transmission provider, when siting or expanding a transmission line, to notify local governments of the potential for a powerline trail in the associated transmission corridor;
- Requires a transmission provider, when applying for a permit with a local government to develop in an area of state interest, to demonstrate compliance with the requirement to notify local governments of the potential for a powerline trail and to develop and maintain informational resources encouraging construction of new powerline trails;
- Requires the public utilities commission to amend its rules to also require electric public utilities in the state to consider plans for the construction of new powerline trails and with the requirement to develop and maintain informational resources on powerline trails;
- Requires the Colorado electric transmission authority (CETA) to arrange for the continuation of any existing powerline trail contracts before entering into a project or divesting a facility; and
- Requires the CETA to give priority for project solicitations to electric utilities and other entities that demonstrate an interest in continuing or creating a powerline trail.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly

1 hereby finds and declares that:

2 (a) Outdoor recreation is an essential component of Colorado's
3 identity and economy and is vital to the health and enjoyment of
4 Coloradans;

5 (b) Transmission lines deliver electricity to Colorado's cities and
6 towns, and adding recreational trails in the corridors underneath those
7 transmission lines could provide additional community value and
8 benefits; and

9 (c) These recreational trails, known as powerline trails, can:

10 (I) Provide a network of safe and enjoyable routes to work and
11 school or for a recreational purpose;

12 (II) Reduce the land acquisition costs of new recreational trails;

13 (III) Bring new outdoor recreation opportunities and tourism to
14 rural areas of Colorado;

15 (IV) Provide access to scenic landscapes and cultural features of
16 Colorado; and

17 (V) Provide sustainable community connections.

18 (2) The general assembly therefore declares that the development
19 of powerline trails in the state should be encouraged, facilitated, and
