Summary of Legislation

The bill makes an appropriation and requires the Department of Health Care Policy and Financing to distribute the money appropriated for supplemental, state-only payments to urban Indian organizations to address health-care disparities among the urban Indian community.

Background

The federal American Rescue Plan Act (ARPA) temporarily increased the federal match to 100 percent for services to Medicaid clients by Urban Indian Organizations. The enhanced federal match is available for 8 quarters retroactive to April 2021. This bill allows the estimated General Fund savings to be passed through to Denver Indian Health and Family Services, the state's only Urban Indian Organization.

State Expenditures

The bill will increase state General Fund expenditures in the Department of Health Care Policy and Financing by \$70,825 in the current FY 2021-22 and \$48,025 in FY 2022-23.

Other Budget Impacts

General Fund reserve. Under current law, an amount equal to 15 percent of General Fund appropriations must be set aside in the General Fund statutory reserve beginning in FY 2022-23 (13.4 percent in FY 2021-22). Based on this fiscal note, the bill is expected to increase the amount of General Fund held in reserve by the amounts shown in Table 1, which will decrease the amount of General Fund available for other purposes.

Effective Date

The bill was signed into law by the Governor and took March 7, 2022.

State Appropriations

The bill includes General Fund appropriations to the Department of Health Care Policy and Financing of \$70,825 in the current FY 2021-22 and \$48,025 in FY 2022-23.
