Summary of Legislation

Senate Bill 22-013, signed into law on February 25, 2022, increased the size of the Board of Commissioners of the State Fair Authority from eleven to thirteen members, including the Commissioner of Agriculture or the Commissioner's designee, two residents from the county where the state fair is held (Pueblo County), one resident from each of the eight congressional districts, and two residents from the state at large. SB22-013 added an at-large member and a member from the new eighth congressional district. Instead of members from each of the eight congressional districts, this bill requires two members from each of the four agricultural districts in the state.

On October 31, 2022, the Governor must appoint two members from the state at large. When a current member's term expires or a vacancy otherwise occurs, the Governor must appoint members according to the requirements included in the bill. The bill also sets requirements for members regarding occupation, agricultural experience, residency, and political party affiliation. The requirements included in this bill supersede the requirements in SB22-013.

State Expenditures

The bill increases workload for the Office of the Governor to incorporate the new requirements. This can be accomplished within existing appropriations.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
