The bill creates a new state holiday for Juneteenth. It increases state expenditures beginning in the current FY 2021-22.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: The fiscal note reflects the enacted bill.

Summary of Legislation

The bill creates a new state holiday for Juneteenth, to be observed June 19 each year.

Background and Assumptions

The fiscal note assumes that adding a state holiday does not directly affect the salary of any state employee and that the any adjustments to state workflow will be minor. The fiscal note further assumes that state agencies will offer an alternate holiday to employees who are required to work on Juneteenth, and that the bill will take effect before Juneteenth, 2022.

State Expenditures

The bill increases workload in state agencies to updates policies and payroll systems in the current FY 2021-22. To the extent that state operations must take place on the holiday, expenditures may increase to pay for additional staff hours or overtime. Based on the assumptions above, any increase in expenditures is expected to be minimal and will be addressed through the annual budget process, as necessary.

Local Government

If a county, municipality, school district, or other local government follows the state's holiday schedule, workload will increase, and expenditures may increase, to manage and change schedules and payroll to account for the new holiday.

Effective Date

This bill was signed into law by the Governor and took effect on May 2, 2022.
