Summary of Legislation

The bill permits a voter to use the address of a residence that has been destroyed or is uninhabitable as his or her residence for voter registration, if the voter intends to return once the residence is habitable, or to a newly constructed residence. The bill allows the residence provided for motor vehicle registration and state income tax purposes to be different than the residence provided for voter registration.

Assessment of No Fiscal Impact

Permitting a voter to use the address of a home that has been destroyed or is uninhabitable for voter registration will not have a material impact on the workload, expenditures, or revenue of the Secretary of State, county clerks and recorders, or other local elections officials. For this reason, the bill is assessed as having no fiscal impact.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.
