recommendations of the film incentive task force report provided findings and recommendations that the bill codifies into statute including:

- Restructuring the film incentive program, from its current state as a cash rebate program into a refundable income tax credit (credit) for qualified production companies for income tax years commencing on or after January 1, 2024, but before January 1, 2029, that commence during a calendar year that begins during a state fiscal year for which there are at least \$50 million of excess state revenues that are required to be refunded above amounts being refunded by specified existing refund mechanisms.
- Specifying that the credit is not allowed for income tax years beginning in any other calendar year unless the general assembly, acting by bill, specifies a maximum aggregate amount of such tax credits that is allowed for that income tax year; and
- Requiring the office of economic development and the office of film, television, and media to jointly review the effectiveness of the credit and report the results of the review to the house of representatives finance committee and the senate finance committee, or their successor committees, no later than February 4, 2028.
