The bill creates within the department of revenue the division of natural medicine for the purpose of regulating and licensing the cultivation, manufacturing, testing, storage, distribution, transport, transfer, and dispensation of natural medicine or natural medicine product between natural medicine licensees. The bill states that:

- A person who is under 21 years of age who knowingly possesses or consumes natural medicine or natural medicine product commits a drug petty offense and is subject to a fine of not more than $100 or not more than 4 hours of substance use education or counseling; except that a second or subsequent offense is subject to a fine of not more than $100, not more than 4 hours of substance use education or counseling, and not more than 24 hours of useful public service;

- Unless expressly limited, a person who for the purpose of personal use and without remuneration, possesses, consumes, shares, cultivates, or manufactures natural medicine or natural medicine product, does not violate state or local law, except that nothing permits a person to distribute natural medicine or natural medicine product to a person for certain unlawful purposes;

- A lawful action related to natural medicine or natural medicine product must not be used as the sole factor in a probable cause or reasonable suspicion determination of any criminal offense; except that an action may be used in such determination if the original stop or search was lawful and other factors are present to support a probable cause or reasonable suspicion determination of any criminal offense;

- The fact that a person is entitled to consume natural medicine or natural medicine product does not constitute a defense against any charge for violation of an offense related to operation of a vehicle, aircraft, boat, machinery, or other device;

- A local jurisdiction is prohibited from adopting, enacting, or enforcing a conflicting law;

- A person or entity who occupies, owns, or controls a property may prohibit or otherwise regulate the cultivation or manufacture of natural medicine or natural medicine product on or in that property.

The bill states that an act involving natural medicine or natural
medicine product that is performed by a person:

- Does not solely constitute child abuse or neglect, or grounds for restricting or prohibiting family time;
- Does not solely constitute grounds for denying health insurance coverage;
- Does not solely constitute grounds for discrimination for organ donation; and
- Must not be considered for public assistance benefits eligibility, unless required by federal law.

The bill makes a person eligible to file a motion to have conviction records related to natural medicine or natural medicine product sealed immediately after the later date of final disposition or release from supervision.

Under federal law, certain expenses are disallowed under section 280E of the internal revenue code. Under state law, the state income tax code permits taxpayers who are licensed under the "Colorado Marijuana Code" to subtract expenses that are disallowed by section 280E of the internal revenue code. The bill expands this permission to taxpayers who are licensed under the "Colorado Natural Medicine Code".

valid, unless it appears to the court that the valid provisions of
the statute are so essentially and inseparably connected with,
and so dependent upon, the void provision that it cannot be
presumed that the general assembly would have enacted the
valid provisions without the void one; or unless the court
determines that the valid provisions, standing alone, are
incomplete and are incapable of being executed in accordance
with the legislative intent.
