Summary of Legislation

The bill increases the tax rate that applies to insurance premiums paid to an unauthorized insurer from 2.25 percent to 3.0 percent beginning January 1, 2024.

Background

The Office of the State Auditor (OSA) is required to evaluate all of the state's tax expenditures at least once every five years. The OSA published the Unauthorized Insurance Premium Tax Expenditures evaluation report in January 2020. The OSA evaluation determined that the three tax expenditures related to insurance policies written by unauthorized insurers are being used only under limited circumstances, or not at all.

The full report can be found here:

According to the Division of Insurance in the Colorado Department of Regulatory Agencies, taxpayers reported procuring 58 policies through unauthorized insurers worth about \$3.3 million in written premiums from July 2015 to March 2019, the most recent data available. These premiums generated just over \$79,000 in unauthorized insurance tax payments.

State Revenue

The bill is expected to increase General Fund revenue by \$3,250 in FY 2023-24 (half-year impact) and by \$6,500 in FY 2024-25 and future years. These amounts represent the impact of taxing about \$867,000 in annual unauthorized insurance premiums at a rate of 3.0 percent, rather than the current law rate of 2.25 percent.

Other Budget Impacts

TABOR refunds. The bill is expected to increase the amount of state revenue required to be refunded to taxpayers by the amounts shown in the State Revenue section above. Because TABOR refunds are paid from the General Fund, increased General Fund revenue will increase the TABOR refund obligation, but result in no net change to the amount of General Fund otherwise available to spend or save.

Effective Date

The bill was signed into law by the Governor on March 31, 2023, and takes effect January 1, 2024, assuming no referendum petition is filed.
