Bill Topic: MODIFY RURAL COUNTY OFFICER SALARY CATEGORIES

Summary of Fiscal Impact:
State Revenue, State Expenditure, State Transfer, TABOR Refund, Local Government, Statutory Public Entity

For the purpose of setting the salaries of elected county officers, this bill reclassifies nine counties. Reclassifying these counties increases county expenditures for officer salaries.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: This revised fiscal note reflects the reengrossed bill.

Summary of Legislation

The salary of county officers is set in statute and determined by the category of the county in which the officer serves (grouped as categories I through VI). Four subcategories, A through D were added to each category in 2015 for the purpose of adjusting county officer salaries. The statutory salary amounts are adjusted every two years for inflation and take effect for terms commencing after any change is made. This bill reclassifies nine counties with an accompanying percentage increase in salary, as follows:

- Archuleta County changes from category III-B to III-A (8 percent increase);
Las Animas County changes from III-D to III-C (10 percent increase);
Grand County changes from III-B to II-A (8 percent increase);
Pitkin County changes from II-C to II-A (18.2 percent increase);
Delta County changes from III-B to III-A (8 percent increase);
Saguache County changes from V-B to V-A (8 percent increase);
Ouray County changes from IV-A to III-A (14.1 percent increase for sheriffs; 17.7 percent increase for commissioners, treasurers, assessors, and clerks; 49.8 percent increase for coroners; and 50 percent increase for surveyors); and
Summit and Eagle Counties change from II-A to I-A (18.5 percent increase for commissioners, treasurers, assessors, and clerks; 22.2 percent increase for surveyors; 23.5 percent increase for sheriffs; and 65.5 percent increase for coroners).

Local Government

The bill increases county government expenditures for salaries for the designated officials whose salary is set in state statute. The bill categorizes nine counties into higher tiers, resulting in higher salaries for commissioners, sheriffs, treasurers, assessors, clerks, coroners, and surveyors in those counties. Salary increases for county offices will take effect as new individuals take elected office in either 2024 or 2026.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
