## Summary of Legislation

The bill directs the Colorado Energy Office (CEO) to conduct two studies of electric transmission and advanced energy solutions. The studies must include specific energy generation and storage solutions, regional economic impacts, and potential, prerequisite regulatory changes. One study must focus on parts of Montrose County; the other must focus on southeastern Colorado. CEO must submit its findings and recommendations to the General Assembly and the Just Transition Office in the Department of Labor and Employment by July 1, 2025.

## State Expenditures

The bill increases state expenditures in CEO by approximately \$220,000 per year in FY 2023-24 and FY 2024-25, paid from the Just Transition Cash Fund and federal funds. Expenditures are shown in Table 2 and detailed below.

**Table 2**  
**Expenditures Under HB 23-1247**

	FY 2023-24	FY 2024-25
<b>Colorado Energy Office</b>		
Personal Services	\$16,374	\$19,650
Consultant	\$200,000	\$200,000
Centrally Appropriated Costs <sup>1</sup>	\$2,637	\$4,045
<b>Total Cost</b>	<b>\$219,011</b>	<b>\$223,695</b>
<b>Total FTE</b>	<b>0.1 FTE</b>	<b>0.2 FTE</b>

<sup>1</sup> Centrally appropriated costs are not included in the bill's appropriation.

**Colorado Energy Office.** The office requires a consultant to conduct the studies, estimated at \$400,000 over approximately two years. Of this amount, \$50,000 is estimated to come from the Office of Just Transition and its existing FY 2023-24 spending authority from the Just Transition Cash Fund. The remaining costs in FY 2023-24 and all costs in FY 2024-25 will be covered by federal funds received under the federal Inflation Reduction Act. CEO also requires 0.3 FTE over the life of the studies to solicit and monitor the contract, support the studies, and review and submit the findings to the General Assembly. Costs in FY 2023-24 are prorated for the bill's effective date.

**Centrally appropriated costs.** Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are shown in Table 2.

## Local Government

The bill minimally increases workload for any local government that collaborates with the studies in FY 2023-24 and FY 2024-25 only.

## State Appropriations

For FY 2023-24, the bill requires a reappropriation of \$50,000 to the Colorado Energy Office. This is from an existing spending authority from the Just Transition Cash Fund in the Department of Labor and Employment. The following informational appropriation may be added for tracking purposes. The bill requires an appropriation of \$216,374 to the Colorado Energy Office and 0.3 FTE, of which \$50,000 is reappropriated from the Just Transition Cash Fund in the Department of Labor and Employment and \$166,374 is federal funds received through the Inflation Reduction Act.

## Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
