Summary of Legislation

The bill expands the use of the Small Communities Water and Wastewater Grant Fund by the Department of Public Health and Environment to include a state match as required by the federal Infrastructure Investment and Jobs Act.

State Expenditures

This expanded use of the Small Communities Water and Wastewater Grant Fund, which is continuously appropriated to CDPHE, will allow the department to access federal funds with a 10 percent state match. This is estimated to require \$6 million to secure \$60 million in federal funds. The fiscal note shows expenditures taking place in FY 2023-24; the timing of actual expenditures will depend on the availability of federal funds and on implementation decisions by CDPHE.

Local Government

To the extent that additional federal funds received are used for local government infrastructure projects, local revenue and expenditures will increase correspondingly.

Effective Date

This bill was signed into law by the Governor and took effect on April 25, 2023.
